Provide specifics in reference to the event including the allegations and your role:

I admitted the patient in labor and signed her out immediately afterwards at ca 18.00 and went home. In the early morning hours, around 4 AM, the breech delivery done by other residents was complicated, the baby was admitted to the NICU. I was not involved in labor and delivery.
The action against all residents was discontinued, without settlement and without consideration, abandoned by the plaintiff as baseless against me and the other residents on 2/6/02.
