Section 1

INTRODUCTION

This directory provides a list of the plan's network providers. You may also receive services from out-of-network providers. To get detailed information about your health care coverage, please see your Evidence of Coverage.

What is a primary care physician?

A primary care physician (PCP) is the doctor who may see you on a regular basis as your main doctor.

Your PCP can help you:

- Make smart lifestyle choices to improve and maintain your health
- Get preventive care and health screenings
- Better understand your medical conditions
- Coordinate any specialist care to help avoid duplicate and expensive tests. Your plan may require your PCP to coordinate any specialist care you receive
- Manage your prescriptions and identify possible harmful interactions

How to choose a primary care physician (PCP)

You will have to choose one of our in-network physicians to be your primary care physician (PCP). PCPs are listed in the **Primary Care Physician** section of this directory. The term PCP will be used throughout this directory. You may also receive services from out-of-network providers.

If you choose a PCP who is not taking new patients, we may assign you to a different PCP. If this happens, you can switch to another PCP who is accepting new patients.

Your PCP plays an important role in your health care and we want you to be comfortable with the provider you choose. If you want to switch providers, call Customer Service toll-free at **1-877-702-5110**, 8 a.m. to 8 p.m. local time, 7 days a week. TTY users should call **711**.

The difference between in-network and out-of-network providers

In-network providers are providers that your plan works with to provide your care. If you use an in-network provider, your out-of-pocket costs may be lower. Out-of-network providers are providers that we currently do not work with, so your out-of-pocket costs, which are costs paid by you, may be higher.

The "network providers" listed in this directory have agreed to provide you with your health care coverage. Check your Evidence of Coverage to make sure your plan includes additional benefits or that you've signed up for optional supplemental benefits before making appointments for dental, vision or hearing services. In some cases, you may get covered services from out-of-network providers. You can see an in-network specialist without getting a referral. If you have been going to one network provider, you are not required to continue going to that same provider.

If I need emergency or urgent care

A **medical emergency** is when you, or any other ordinary person with an average knowledge of health and medicine, believe that you have symptoms that require immediate medical care to prevent death, loss of a limb, or loss of function of a limb. The medical symptoms may be an illness, injury, severe pain, or a medical condition that is quickly getting worse.

If you have a medical emergency, get help as quickly as possible. Call 911 or go to the nearest emergency room or hospital. Emergency care can always be obtained in or out of the service area from the nearest available provider. Emergency services are also covered whether a provider in our network helps you or not. You or someone else should call and tell us about your emergency care, usually within 48 hours.

“**Urgently needed care**” is a non-emergency, unforeseen medical illness, injury, or condition, that requires immediate medical care. If you need urgent care when in the service area, you must use plan providers for urgent care. When out of the service area, urgent care may be obtained from the first available provider whether the provider is in our network or not. In addition, when out of the service area, you can obtain dialysis treatment from any qualified dialysis provider.

Our plan does not cover urgently needed care or any other non-emergency care if you receive the care outside of the United States.

If you get a bill

There may be times when you get a bill from a provider for the full cost of medical care you have received. In many cases, you should send this bill to us instead of paying it. We will look at the bill and decide whether the services should be covered. If we decide they should be covered, we will pay the provider directly. Please see your Evidence of Coverage for more information.

If you're on Medicare and Medicaid

If you're a Qualified Medicare Beneficiary (QMB), your doctor may not bill you for deductibles, co-pays or co-insurance for Medicare-covered services, except for Part D prescription drug co-pays. Please show your member ID card and your state-issued Medicaid member ID card when you see the doctor or use other plan services. This will help ensure you're billed for the correct amount.

Accessing your mental health benefits

To access your mental health benefits, call the toll-free mental health number on the back of your member ID card. When you call, a representative will check your eligibility and get basic information about you and your situation. Depending on the help you need, a clinician may talk with you and recommend a provider and treatment plan. If you prefer, your PCP may call and arrange a referral for you. Your personal information will be kept strictly confidential.

Organ transplant services

Your plan has a nationwide network of facilities that perform organ transplants (including the heart, lung, liver, intestine, kidney, bone marrow and/or pancreas). Solid organ transplants must be performed at a facility that is currently Medicare-approved for your specific type of transplant. The complete list of

your plan's facilities that are approved by Medicare may change throughout the year. For information on network facilities for transplant services, please call Customer Service toll-free at **1-877-702-5110**, TTY 711.

What is the service area for your plan?

Your service area is listed below.

You can also search online at **www.UHCCommunityPlan.com**, which is updated weekly and available 24 hours a day, 7 days a week.

VISION

Vision care

Members whose benefits include additional vision care, such as preventative eye exams and eyewear, may see the following vision providers. Not all network vision providers may be included in this list. This list may change. Please see your Evidence of Coverage for details about plan benefits, limitations and exclusions.

Note: For Medicare-covered vision care (medical conditions of the eye, glaucoma screenings, cataract services, etc.), see the **Specialists** section of this directory.

If your plan does not include additional vision care benefits and you visit one of these providers, your services will not be covered.
