SUBJECT: Initial State Licensure Survey Findings for Above-Referenced Agency

Dear Toni Gumbrecht:

An initial state licensure survey was conducted on May 22, 2014 at Eastland Women's Clinic located at 15921 E. 8 Mile, Eastpointe, MI 48021.

Participants included:

- Toni Gumbrecht , Administrator, Eastland Women's Clinic
- Sherry Joiner RN, Infection Control , Quality Manager, Eastland Women's Clinic
- Karen Amato RN, Administrative Consultant, Eastland Women's Clinic
- Jim Hoyt, State Health Care Surveyor, MDLARA
- Pam Lindsey RN, State Health Care Surveyor, MDLARA

Findings included failure of facility to provide verification of BLS certification for medical assistants involved in direct patient care, R325.3825. Verification of completed certification must be emailed to me before a temporary license can be issued.

Following receipt of requested BLS credentials for all medical assistants providing patient care, the facility will be on an initial basis in compliance with MCL 333.20801 through 333.20821 and/or the Michigan Administrative Rules for freestanding surgical outpatient facilities R325.3801 through R325.3877. At that time a 6 month temporary license will be mailed to you. Once temporary licensure is obtained, a post licensure survey will be conducted after surgeries are performed (within 6 months). Feel free to contact me if you have any questions.
