Ann Arbor, MI 48109

SUBJECT: State Licensure Survey Findings for Above-Referenced Agency

Dear Danielle Terry:

An annual state licensure survey was conducted on December 18, 2014 at Planned Parenthood of Mid-Michigan located at 3100 Professional Drive, Ann Arbor, MI 48109.

Participants included:

- Danielle Terry RN, Regional Director of Patient Services, Planned Parenthood
- Pam Lindsey RN, State Health Care Surveyor, MDLARA

Findings included failure of the facility to separate clean from dirty for instrument reprocessing. (Clean instruments being wrapped in the area where soiled instruments are washed). Evidence was found of the facility practice of allowing patients to bring personal items into the OR, (purses & clothing) without appropriate containment, R325.3825.

An additional finding included failure of the facility to provide an emergency nurse call system in the recovery room bathroom and patient cubicles. R325.3860.

At completion of survey, based on the identified infection control and patient safety related issues, the facility is not in compliance with R325.3825 and R325.3860. The facility must correct the above deficiencies within 60 days. Pursuant to Rule 333.20155 your facility will be scheduled for a revisit to verify the above deficiencies have been corrected.

A handwritten signature in cursive script that reads "Pam Lindsey".
