

New “plastic” abortionist violates local women

Posted on [August 21, 2015](#) by [admin](#)

Could plastic surgery be the cutting edge to help a troubled local abortion business improve its bottom line?

An infamous plastic surgeon from Beverly Hills recently became the primary abortionist in Bakersfield (and other locations of the FPA abortion business). [Alexander Simopoulos](#) has become notorious for his disrespectful treatment of women on television. Now Bakersfield women find themselves in his hands every week (with [at least one local woman already being hospitalized](#), apparently due to a botched abortion).

On Millionaire Matchmaker, Simopoulos confessed that his relationships are “almost exclusively based upon sex,” with women he met on that show calling him “Dr. Freak,” “creepy,” “gross,” and “Dr. Frankenstein.” Excerpts of Simopoulos’ (very inappropriate) scenes can be viewed online on [Bravo TV](#) and [YouTube](#) — but these scenes are in extremely poor taste and should not be watched by anyone who lacks discretion (and intestinal fortitude). [One scene](#) is so disgusting that Simopoulos’ date visibly recoils, saying that she felt like she needed to take a shower. The “matchmaker” herself became so frustrated with Simopoulos’ antics that [she finally blurted out](#) “women of the world, stay away!”

In spite of Simopoulos’ hedonistic lifestyle and his seemingly unlimited access to vulnerable women he can exploit for his own pleasure, it is evident from these scenes that Simopoulos is searching for something more. Will he ever find abundant life by surrendering to Jesus Christ, or will he continue to

During his first few weeks in Bakersfield, Abortionist Simopoulos wore disguises featuring fake tattoo sleeves, apparently seeking to hide his identity.

be deceived into following the devil's downward spiral? We trust that in spite of Simopoulos' destructive path, God has a good plan for his life, so as long as he has breath there will be hope.

From [Simopoulos' website](#), it appears that he recently exchanged his fancy office on Sunset Boulevard for a scattered set of less prestigious [locations](#) — all of which happen to correspond to longtime addresses of the FPA abortion business. (The Bakersfield FPA location is not listed on his own website, but [other websites](#) confirm his presence at Bakersfield's FPA.)

In addition to committing abortions at FPA locations, Simopoulos is also offering various plastic surgery procedures (some of which cannot be described in polite company) at FPA. In addition, FPA is now advertising that it offers "general healthcare." As a result, the local FPA office seems to be busier than ever (now even being open for abortions on Saturdays), but it does not appear at this time that the local abortion rate is increasing. We have not yet encountered any actual plastic surgery patients at the Bakersfield FPA location.

Having witnessed a decreasing local abortion rate for the past several years, we knew that FPA would need to make some changes to remain in business. While we anticipated that Obamacare would enable FPA (and Planned Parenthood) to expand their services, and their profits, we never considered the possibility that FPA would begin offering plastic surgery (even though we now realize that there seems to be a [spiritual connection between abortion and plastic surgery](#)).

The need for local volunteers to pray and minister outside the abortion chamber has never been greater, especially on Tuesdays and Saturdays (which have become the usual abortion days). Please consider signing up for a regular prayer time during our coming [40 day vigil](#), September 23 through November 1.

The video above can also be viewed on [Facebook](#).

When the Christian girls in our churches who are brought to PP stop aborting their children repent and expose the murder of the innocent and helpless... Planned Parenthood will go out of business. Pastors: call your women to repent and do so publicly.

God may yet end the drought and fires and have mercy... not to mention restoration in the state based upon truth.

If this repentance does not happen.. and soon... there will be violent earthquakes, burning cities that have been attacked by foreign powers and there will be famine.

Its up to you.

When will we be tired of the endless stream of LIFE COACHES IN THE PULPIT!!

PREACHERS THAT TELL THE TRUTH IS WHAT IS NEEDED.. AND OBEDIENT CHILDREN THAT REMAIN IN CHRIST IS WHAT SHOULD RESULT.

WE DONT NEED "POSITIVE AND ENCOURAGING" WE NEED SPIRIT AND TRUTH.

"MANY WILL SAY LORD, LORD,... AND I WILL SAY I NEVER KNEW YOU"

Those who dared to click on the disgusting clips of Simopoulos on Millionaire Matchmaker may be interested to know that he lied about his house. The house he claimed was his actually belonged to fellow plastic surgeon Dr. David Matlock, as Matlock himself confesses here: <http://dangerouslee.biz/2013/12/06/interview-with-dr-matlock-the-vagina-surgeon/>

(Apparently Simopoulos actually lives in an apartment.)
