Rebecca H. Allen, MD, MPH, FACOG

Rebecca Allen, MD, joined Women & Infants in 2007 after completing a fellowship in family planning and research fellowship in medicine through Harvard Medical School at Brigham and Women's Hospital Division of Women's Health. She completed the dual medical degree- master's of public health degree program at Columbia University College of Physicians and Surgeons. She fulfilled residency requirements at Brigham and Women's Hospital. Dr. Allen has received several awards for her work, including placement in the Early Career Women Faculty Professional Development Seminar by the Association of American Medical Colleges, and Excellence in Teaching Awards from The Warren Alpert Medical School of Brown University, where she is an assistant professor of obstetrics and gynecology. She is board certified by the American Board of Obstetrics and Gynecology. She served as a member of the Selected Practice Recommendations for Contraceptive Use for the United States through the Centers for Disease Control and Prevention. She is also a member of the American Society for Reproductive Medicine and chair of its Contraception Special Interest Group. She is an active researcher and, most recently, served as principal investigator in a trial investigating use of lidocaine gel for IUD insertion.
