I am so thankful for the care I received at Lovejoy. Everyone went above and beyond to make me feel safe and comfortable.  
I came in with horrible anxiety and let them know right away that I sometimes have panic attacks and can faint as a result, and everyone that cared for me that day made an extra effort to keep me calm and help me relax.  
Dr. Wyatt was great. She came to check on me before and after the procedure and was patient with me during the surgery itself. The procedure is quick, it hurts like hell but it's fast. Afterwards you get to sit in a comfy chair with a warm blanket and relax with a snack.  
They even helped me get my insurance and financial situation in order, which was a huge relief.  
I can't say enough about the care and compassion I received here. I was in a tough place and they helped me out of it with zero judgement and all the love they could give.  
If you are in that same tough place and looking for help out of it, I definitely recommend Lovejoy Surgicenter.

Everyone treated me with kindness and compassion. I never could have predicted that at one point in my life the only place that made me feel safe was an abortion clinic. I can't say enough how thankful I am for the experience I had here. My pregnancy was the worst experience of my life. But Lovejoy fixed it for me and healed my soul. Thank you so much :')

I would like to thank the staff at Lovejoy for making a hard situation a little bit easier. You are doing good work. The staff was compassionate and kind. Thank you for saving my life and I will forever be grateful. It is my duty to pay it forward and ensure that women's health care should always be available as it was for me.

Forever thankful.

I remember coming here a long time ago and I wanted to share that the doctor who performed surgery on me was very kind.  
The nurses were also nice, I remember the consultation being lengthy and annoyingly pushy.

First to Review

The circumstances that brought me to the Lovejoy Surgicenter were less than ideal, but the receptionist, nurses, and doctors were all friendly and professional, but not overly attentive or compassionate. Not to say that they were cold - I felt at ease and comfortable enough around them - but the real stand-out part of my visit was the (mandatory) counseling session.

Though my memory is hazy, I \*think\* my counselor's name was Nicole, and she was amazing. She sat and spoke with me before the procedure, was reassuring and not at all impatient or rushed or distracted, even though I know she counsels women like me all day long, every day. I felt like she really cared about MY situation and took the time to thoroughly address all of my concerns.

I returned for my optional follow-up counseling about a week later and was ecstatic when I was able to see Nicole again. She remembered my and asked me how I was doing, and again seemed genuinely interested in my well-being.

My experience at the Lovejoy Surgicenter was the best that it could have been, especially considering the circumstances, and I would recommend them in a heartbeat.

## From the business

### Specialties

Lovejoy Surgicenter is proud of the role it plays in caring for women. For more than 40 years we have given women reproductive choice when no one else could.

### History

Established in 1971.

In 1971, several area doctors saw the need for a private facility that would provide abortions for

women. Prior to that time, abortion procedures in Portland and throughout Oregon were performed at a teaching hospital. There were no guarantees of privacy, little or no respect for patients, and only after meeting with a social worker and being labeled "unfit" to parent was an abortion allowed. This is how Lovejoy was started. And it was the right thing to do.

We are very proud that Lovejoy is a leader in women's health care, and the innovation we've shown in reproductive care and other women's health care needs has taught a generation of women to expect excellent treatment, informed consent, and freedom of choice.
