**Remember:**

Always call your provider to confirm that the provider is in the network of the plan you are considering or renewing and will continue to be during the upcoming coverage year. If you are a new patient, you should also make sure the provider is accepting new patients.

If a provider has multiple specialties, you will see this information. However, you should always call the provider to be sure that they accept your health plan for a particular specialty.

Provider directories are never perfect. We try our best to keep this directory current and useful. The responsibility to determine if a doctor is in a given plan's network, however, falls solely on you. By using this directory you acknowledge that the Center for the Study of Services / Consumers' CHECKBOOK and Massachusetts Health Connector are not liable in any way for errors or omissions in this directory.
