PEACE: Family Planning and Pregnancy Loss Services

Holistic and Compassionate Care

PEACE provides access to comprehensive and compassionate care for individuals and families seeking family planning care and management of pregnancy complications.

Family planning and pregnancy complication options have changed significantly in recent years. With so many choices, you may be uncertain about which services and treatments are best for you. PEACE's expert team of clinicians is here to guide you through your options so that you can decide what best fits your needs.

Clinical Services

Early Pregnancy Concerns

Sometimes bleeding and cramping in pregnancy is normal, but it could also indicate a problem. PEACE bridges the gap between your first pregnancy test and the start of prenatal care to ensure that you get the right care at the right time.

Contraception

There are many options for contraception; our goal is to find the one that best suits your needs. Our clinicians will talk with you about your lifestyle, birth control needs, and medical history so you can decide the best fit for your life.

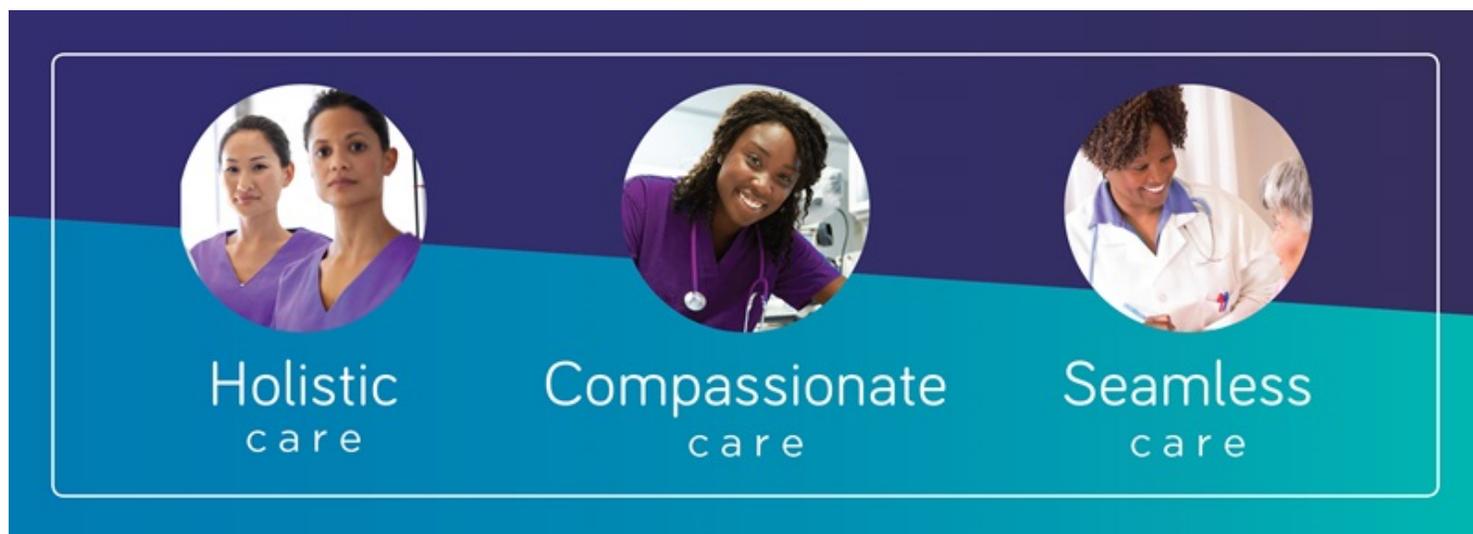

Comprehensive Miscarriage Care

Miscarriage occurs in about 20 percent of pregnancies, and most take place in the first 13 weeks of pregnancy. We offer several treatment options for miscarriage including medical management, surgical management and expectant management. We also offer comprehensive miscarriage counseling.

Abortion Care

Our physicians offer expert and compassionate abortion services in a supportive and comfortable environment. The decision to end a pregnancy is often complex, and we respect and care about your individual circumstances. Our services include medical and surgical pregnancy termination, patient centered pregnancy options counseling, and post pregnancy loss counseling and referrals.

Why PEACE?

Holistic Care: We care about your whole life, not just the care that brings you to our center. Our team believes in a shared decision making model that empowers you to make the decisions that will shape your life and family.

Compassionate Care: Along with meeting your medical needs, we'll also work with you to provide counseling or resources for your emotional care. We understand that family planning care, especially when related to pregnancy loss, can lead to a wide range of emotional responses. Our team is here to support you.

Seamless Care: When appropriate, we partner with your Ob/Gyn physician, primary doctor, and specialists to ensure that you have a seamless experience.

Our team also leads innovative clinical research, developing the breakthroughs that will become the treatments of tomorrow. [Learn more](#) about our research and studies.
