Locations

Providers at University OB/GYN Associates see patients in many locations within Upstate Medical University, depending on the type of care you need. For example, office visits and IVF services are generally scheduled at the Physicians' Office Building. Women's health appointments are at the Upstate Health Care Center, and the breast care program is located at Upstate Specialty Services.

Labor and deliveries take place at Upstate University Hospital at Community, Upstate University Hospital (main campus), Crouse Hospital, and the Regional Perinatal Center. Choose one of these locations below to learn more and get contact information.
