Re: File 51-15-136490

Dear Dr. Sharpe:

The Board of Osteopathic Medicine & Surgery Disciplinary Subcommittee's Consent Order, dated October 5, 2017, requires one satisfactory records review with a Board approved physician reviewer. The reviewer request that you submitted has been reviewed with the following determination:

Approved William Anderson II DO to act as physician reviewer

You are responsible for scheduling the time and place of the meeting with the physician reviewer. The reviewer will review the records of a minimum of 10 patients treated by you. The physician reviewer will submit report to the Department.

If you have questions regarding this correspondence, please call the Compliance Section at (517) 335-3114.

Subject: RE: Reginald D Sharpe DO

Dan, I believe the standard of care for a DO and MD OB-Gyn are the same so I would approve the MD reviewer. I also support the remote review as I have done reviews in the practice and it is not ideal. Is there a way we can select the charts to review rather than Dr. Sharpe cherry picking the files?

Thanks,

David Walters DO MHSA

WARNING: This email originated from **outside** of Beaumont Health.

Do not click on any links or open any attachments unless you recognize the sender and are expecting the message.

Dr Walters, I received a call from Jim Anliot from Affiliated Monitors regarding Dr Sharpe. The Order requires Dr Sharpe to obtain one satisfactory records review during probation, and that the review be conducted at his practice by an osteopathic physician.

Mr Anliot wanted to know, even though the Order states the review shall be conducted by a DO, if an MD could conduct the review. He has an MD, who is an OB-Gyn, that has done reviews for them in the past that he would recommend.

Secondly, the Order states the review shall be conducted at Dr Sharpe's practice site. Mr Anliot was wondering if the review could be done remotely, which is how they normally conduct the reviews. His thought was that because of any potential reviewers schedule, it may be easier to obtain a reviewer if the review could be done remotely. Thanks in advance for your response.

Dear Dr. Sharpe:

The Board of Osteopathic Medicine & Surgery Disciplinary Subcommittee's Consent Order dated October 5, 2017, placed you on probation with terms. As a term of probation you are required to obtain one satisfactory records review with a physician reviewer from a Board accepted monitoring organization. You may contact James Anliot, Director of Healthcare Compliance Services at Affiliated Monitors, Inc. Mr. Anliot will arrange the physician review with you. His phone number is (866) 201-0903, or you may contact him by email at janliot@affiliatedmonitors.com.

You may also obtain and request a physician reviewer for Board approval on your own. When requesting approval of a proposed monitor, please include a copy of their curriculum vitae to the Department.

The terms of probation require you to complete continuing education as specified in the Order. The continuing education hours must be pre-approved by the Chairperson of the Board. Submit your proposed course requests to the Department at the address or fax below. Each proposed course request should include the title of the course, the name of the course provider, a brief course description, the available continuing education credits and the accreditation information. You will be advised, in writing, of each proposed course approval or denial.

Enforcement Division
Compliance Section
P.O. Box 30670
Lansing, MI 48909
Fax: (517)241-9280

The terms of the Board order also require you to submit a fine payment in the amount of \$15,000.00. The fine payment must be received by the Department no later than **March 4, 2018**. Be sure to make your check or money order payable to the State of Michigan and clearly print on it the above file number. Submit the payment to: Bureau of Professional Licensing, Enforcement Division, Compliance Section, P.O. Box 30189, Lansing, MI 48909.

If you have questions regarding this correspondence, please call (517) 335-3114.

_____/ CONSENT ORDER AND STIPULATION

CONSENT ORDER

An administrative complaint was filed with the Disciplinary Subcommittee of the Board of Osteopathic Medicine and Surgery on October 28, 2016, charging Reginald Sharpe, D.O. (Respondent) with having violated sections 16221(a) and (b)(i) of the Public Health Code, MCL 333.1101 *et seq.*

The parties have stipulated that the Disciplinary Subcommittee may enter this consent order. The Disciplinary Subcommittee has reviewed the stipulation contained in this document and agrees that the public interest is best served by resolution of the outstanding complaint. Therefore, the Disciplinary Subcommittee finds that the allegations of fact contained in the complaint are true and that Respondent has violated sections 16221(a) and (b)(i) of the Public Health Code.

Accordingly, for these violations, IT IS ORDERED:

Respondent is placed on PROBATION for a minimum period of one day, not to exceed one year, commencing on the effective date this order. Respondent shall be automatically discharged from probation upon the Department's receipt of

satisfactory written evidence of Respondent's successful compliance with the terms and conditions below, provided compliance occurs within one year. If Respondent fails to complete any term or condition of probation as set forth in this order within one year of the effective date of this order, Respondent will be in violation of Mich Admin Code, R 338.1632 and section 16221(h) of the Public Health Code.

The terms and conditions of the probation are as follows:

- A. RECORDS REVIEW. Respondent shall obtain one satisfactory records review during the probationary period. The review shall be conducted at Respondent's practice site by an osteopathic physician who is designated by Affiliated Monitors, Inc., or approved in advance by the Chairperson of the Board or the Chairperson's designee. The approved reviewer will review the records of a minimum of 10 patients treated by Respondent. The records shall be randomly selected, and at least half shall be for patients for whom Respondent performed a surgical abortion. Respondent shall provide selected patient files to the approved reviewer in the manner specified by the reviewer. Both paper and electronic medical records shall be made available, as appropriate.

If the approved reviewer identifies deficiencies in the initial records review, one or more subsequent reviews shall be conducted during the probationary period at a schedule to be agreed upon by Respondent and the reviewer. The approved reviewer shall promptly notify the Department in writing when Respondent satisfactorily completes a records review.

Within 30 days of the effective date of this order, Respondent shall contact the Compliance Section to obtain contact information for Affiliated Monitors, Inc., or request approval of a proposed reviewer. Respondent shall provide a copy of this order and the complaint dated October 28, 2016, to the proposed reviewer before requesting approval, and shall provide a copy of the proposed reviewer's curriculum vitae to the Department when requesting approval. Respondent shall fax the request to (517) 241-9280 or mail it to the address below. Respondent shall contact the approved reviewer to schedule the reviews and provide a copy of this order and the complaint dated October 28, 2016, to the reviewer in advance of the initial review.

- B. RECORDS REVIEWER CHANGE. If the approved reviewer becomes unavailable before Respondent satisfactorily completes a records review, Respondent shall contact the Compliance Section as set forth above to request approval of a new reviewer.

- C. CONTINUING EDUCATION CREDITS. Respondent shall successfully complete a total of 20 hours of continuing education credits in the area of documentation, conscious sedation, and risk management during the probationary period. These credit hours shall not count toward the number of credit hours required for license renewal. Respondent must seek and obtain advance approval of the continuing education courses from the Chairperson of the Board or the Chairperson's designee. Respondent shall mail requests for approval of a course and proof of successful completion of a course to the Department at the address set forth below.
- D. COMPLIANCE WITH THE PUBLIC HEALTH CODE. Respondent shall comply with all applicable provisions of the Public Health Code and rules promulgated thereunder.

Any violation of the Public Health Code by Respondent during the period of probation shall be deemed a violation of probation and constitute grounds for further disciplinary action.

Respondent is FINED FIFTEEN THOUSAND AND 00/100 DOLLARS (\$15,000.00) to be paid by check, money order or cashier's check made payable to the State of Michigan (with complaint number 51-15-136490 clearly indicated on the check or money order), and shall be payable within 120 days of the effective date of this order. The timely payment of the fine shall be Respondent's responsibility. Respondent shall mail the fine to: Department of Licensing and Regulatory Affairs, Bureau of Professional Licensing, Enforcement Division, Compliance Section, P.O. Box 30189, Lansing, Michigan 48909.

If Respondent fails to timely pay the fine, his license shall be suspended until payment is received. If Respondent's license remains suspended for longer than six months and one day, reinstatement is not automatic. If Respondent petitions for reinstatement of his license, the petition shall be in accordance with sections 16245

and 16247 of the Public Health Code and Mich Admin Code, R 792.10711. Under these provisions, Respondent must demonstrate the following by clear and convincing evidence: (1) good moral character; (2) the ability to practice the profession with reasonable skill and safety; (3) satisfaction of the guidelines on reinstatement adopted by the Department; and (4) that it is in the public interest for the license to be reinstated.

Respondent shall direct any communications to the Department that are required by the terms of this order to: Department of Licensing and Regulatory Affairs, Bureau of Professional Licensing, Enforcement Division, Compliance Section, P.O. Box 30670, Lansing, Michigan 48909.

Respondent shall be responsible for all costs and expenses incurred in complying with the terms and conditions of this consent order.

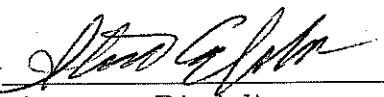

Respondent shall be responsible for the timely compliance with the terms of this consent order, including the timely filing of any documentation. Failure to comply within the time limitations provided will constitute a violation of this order.

If Respondent violates any term or condition set forth in this order, Respondent will be in violation of Mich Admin Code, R 338.1632, and section 16221(h) of the Public Health Code.

This order shall be effective 30 days from the date signed by the Chairperson of the Disciplinary Subcommittee or the Disciplinary Subcommittee's authorized representative, as set forth below.

Signed on 10.5.17

MICHIGAN BOARD OF
OSTEOPATHIC MEDICINE AND
SURGERY

By 
Chairperson, Disciplinary
Subcommittee

STIPULATION

The parties stipulate as follows:

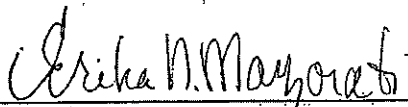

1. The facts alleged in the complaint are true and constitute a violation of the Public Health Code.
2. Respondent understands and intends that, by signing this stipulation, he is waiving the right under the Public Health Code, rules promulgated thereunder, and the Administrative Procedures Act of 1969, MCL 24.201 *et seq.*, to require the Department to prove the charges set forth in the complaint by presentation of evidence and legal authority, and to present a defense to the charges before the Disciplinary Subcommittee or its authorized representative. Should the Disciplinary Subcommittee reject the proposed consent order, the parties reserve the right to proceed to hearing.
3. The Disciplinary Subcommittee may enter the above Consent Order, supported by Board conferee David P. Walters, D.O. Dr. Walters or an attorney from the Licensing and Regulation Division may discuss this matter with the Disciplinary Subcommittee in order to recommend acceptance of this resolution.

4. Dr. Walters and the parties considered the following factors in reaching this agreement:

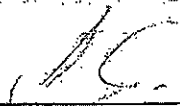

- A. During a compliance conference between the parties, Respondent provided a detailed explanation of his treatment of each patient referenced in the administrative complaint, the circumstances and risk factors involved, and his typical past and current practices. Given the additional information provided at this meeting, the conferee was satisfied the proposed sanction appropriately addresses the deficiencies at issue.
- B. Respondent explained he has learned from the cases described in the complaint and described changes to his practice to improve his documentation and patient outcomes. Respondent also described quality assurance systems in place where he currently practices, specifically as related to documentation review.
- C. Respondent was forthright about and accepted full responsibility for any deficiencies identified in the administrative complaint that were within his responsibility and control.

By signing this stipulation, the parties confirm that they have read, understand, and agree with the terms of the consent order.

Complaint No. 51-15-136490
(and 51-13-128172 and
51-14-134637 consolidated)

ADMINISTRATIVE COMPLAINT

Attorney General Bill Schuette, through Assistant Attorney General Erika N. Marzorati, on behalf of the Department of Licensing and Regulatory Affairs, Bureau of Professional Licensing (Complainant), files this complaint against Reginald Sharpe, D.O. (Respondent), alleging upon information and belief as follows:

1. The Board of Osteopathic Medicine and Surgery, an administrative agency established by the Public Health Code, MCL 333.1101 *et seq.*, is empowered to discipline licensees under the Code through its Disciplinary Subcommittee.
2. Respondent holds a license to practice in Michigan as an osteopathic physician pursuant to Article 15 of the Code and has a current controlled substance license.
3. Section 16221(a) of the Code authorizes the Disciplinary Subcommittee to take disciplinary action against a licensee for a violation of a general duty, consisting of negligence or failure to exercise due care, including negligent delegation to or supervision of employees or other individuals, whether or not injury

results, or any conduct, practice, or condition that impairs, or may impair, the ability to safely and skillfully practice a health profession.

4. Section 16221(b)(i) of the Code authorizes the Disciplinary Subcommittee to take disciplinary action against a licensee for incompetence, which is defined in section 16106(1) as "a departure from, or failure to conform to, minimal standards of acceptable and prevailing practice for a health profession, whether or not actual injury to an individual occurs."

5. Section 16226 of the Code authorizes the Disciplinary Subcommittee to impose sanctions against a person licensed by the Board if, after the opportunity for a hearing, the Disciplinary Subcommittee determines that the licensee violated one or more subdivisions of section 16221.

FACTUAL ALLEGATIONS

6. The following background is provided for historical purposes:

- a. In December 1998, the Disciplinary Subcommittee issued a consent order requiring Respondent to pay a \$2,500 fine and placing him on probation for one year with required continuing education. The case was based on Respondent improperly delegating the administration of schedule IV controlled substances.
- b. In June 2005, the Disciplinary Subcommittee issued a consent order requiring Respondent to pay a \$5,000 fine and suspending his license for 120 days, followed by one year of probation with required continuing education, quarterly board member reviews, and records reviews. The case stemmed from an order of summary suspension and administrative complaint alleging Respondent left a patient unattended in recovery, in pain, and without medical attention for several hours after he could not successfully complete her abortion.

Patient 1

7. On January 11, 2008, patient 1 (numbers used to protect patient confidentiality) presented to Respondent at Sharpe Family Planning in Detroit, Michigan, for a surgical abortion.

8. An ultrasound was performed, and Respondent determined the gestational age of the fetus was approximately 15 weeks and 2 days.

9. Respondent administered 5 milligrams of Midazolam and 10 milligrams of Nubain (Nalbuphine) to the patient intravenously before the procedure, at approximately 11:25 a.m. Respondent also administered lidocaine, a local anesthetic.

10. Shortly after Respondent began the procedure, the patient began to exhibit seizure-like symptoms.

11. Respondent stopped the procedure after the patient began to seize, and called 911 after the patient developed respiratory distress.

12. In an August 28, 2014, interview with a Department investigator, Respondent admitted he perforated the patient's uterus and the patient experienced internal bleeding during the procedure.

13. Respondent failed to provide appropriate initial support to resuscitate the patient.

14. Respondent failed to include in the patient's medical record an operative report or notes about the patient's condition or vital signs during the procedure.

15. With the exception of a short narrative on an add-on sheet, Respondent failed to include in the patient's medical record any documentation regarding the

procedure itself, the complications that occurred, or any medical assistance provided to the patient following the onset of complications.

16. The patient was transferred to St. John's Hospital and Medical Center in Detroit, Michigan.

17. The patient experienced cardiac arrest en route to the hospital.

18. The patient died on January 19, 2008. The post-mortem report lists the cause of death as uterine perforation and complications.

Patient 2

19. On August 5, 2011, patient 2 presented to Respondent at Sharpe Family Planning in Detroit, Michigan, for a surgical abortion.

20. An ultrasound was performed, and Respondent determined the gestational age of the fetus was approximately 19 weeks.

21. Respondent administered 5 milligrams of Midazolam and 10 milligrams of Nalbuphine to the patient before the procedure.

22. Respondent failed to place an intravenous catheter in or administer fluids to the patient during the procedure.

23. The patient complained of strong abdominal pain during the procedure.

24. Respondent transferred the patient to Botsford Hospital in Farmington Hills, Michigan, to "rule out" a uterine perforation due to the unusual amount of pain the patient was experiencing.

25. An ultrasound performed at Botsford Hospital revealed a fetal head protruding outside the patient's uterus and a thickened endometrium. The radiology report stated, "additional retained products can't be excluded."

26. The patient was diagnosed with postoperative hemorrhage and perforation of the uterus.

27. The patient underwent a superacervical hysterectomy at Botsford Hospital due to multiple uterine perforations.

28. Respondent failed to provide appropriate cervical preparation to the patient.

29. Respondent's patient record for the patient contained several consent forms that were incomplete.

30. Respondent failed to include in the patient's medical record an operative report; notes about the patient's condition or vital signs during or after the procedure; or any documentation regarding the procedure itself, with the exception of a short narrative on an add-on sheet.

Patient 3

31. On February 27 and 28, 2014, patient 3 presented to Respondent at WomanCare of Southfield in Lathrup Village, Michigan, for a two-day pregnancy termination procedure.

32. An ultrasound was performed, and Respondent determined the gestational age of the fetus was approximately 23 weeks.

33. Respondent perforated the patient's uterus and the patient experienced internal bleeding during the procedure.

34. Respondent transferred the patient to Botsford Hospital in Farmington Hills, Michigan.

35. An ultrasound performed at Botsford Hospital revealed a uterine perforation and retained fetal parts outside the patient's uterus.

36. The patient underwent surgery to repair the perforation and remove the retained fetal cranium and tissue from the patient's abdominal cavity.

37. Respondent administered an injection of diazepam (Valium) to the patient for sedation on the first day of the procedure. Respondent erroneously documented in the anesthesia record that the medication was administered intravenously.

38. Respondent documented in the anesthesia record "sleep" sedation was provided and that diazepam, promethazine, and Demerol were administered to the patient for the dilation and curettage (D&C) procedure on the second day. Respondent failed to document the route of administration of the medication.

39. Respondent failed to document the dose of each drug administered in the anesthesia records for both days of the procedure. The "dose" column in the records instead indicates the concentration of the solution used.

40. Respondent failed to document the time the medications were administered on both days of the procedure.

41. Respondent performed the D&C procedure without having a nurse or other medical professional present while the patient was sedated.

42. Respondent failed to document the patient's condition and vital signs during the procedure.

43. Respondent failed to include in the patient's medical record evidence the patient was appropriately monitored while she was sedated.

44. Respondent failed to provide appropriate monitoring for the patient while she was sedated.

Patient 4

45. On June 16 and 17, 2014, patient 4 presented to Respondent at WomanCare of Southfield in Lathrup Village, Michigan, for a two-day pregnancy termination procedure.

46. An ultrasound was performed on June 16, 2014, and Respondent determined the gestational age of the fetus was 22 to 23 weeks.

47. Respondent documented in the anesthesia record "sleep/heavy" sedation was provided and that diazepam, promethazine, and Demerol were administered to the patient for the dilation and curettage (D&C) procedure on the second day. Respondent failed to document how the medication was administered.

48. Respondent failed to document the dose of each drug administered in the anesthesia records for both days of the procedure. The "dose" column in the records instead indicates the concentration of the solution used.

49. Respondent failed to document the time the medications were administered on both days of the procedure.

50. Respondent performed the D&C procedure without having a nurse or other medical professional present while the patient was sedated.

51. Respondent failed to provide appropriate monitoring for the patient while she was sedated.

Patient 5

52. On December 31, 2014, patient 5 presented to Respondent at Summit Medical Center in Detroit, Michigan, for a surgical abortion.

53. An ultrasound was performed, which indicated the gestational age of the fetus was approximately 16 weeks.

54. At 12:45 p.m., Respondent administered two 200-microgram tablets of misoprostol to the patient to soften and dilate her cervix and induce abortion.

55. Respondent began the dilation and extraction procedure at 2:30 p.m.

56. Respondent stopped the procedure approximately one hour later due to insufficient dilation of the patient's cervix.

57. At 3:43 p.m., Respondent administered 600 micrograms of misoprostol to further dilate the patient's cervix.

58. Respondent resumed the procedure approximately 1.5 hours later.

59. The patient's membranes spontaneously ruptured during the procedure before her cervix was sufficiently dilated.

60. Respondent transferred the patient to Detroit Medical Center's Sinai-Grace Hospital for completion of the abortion procedure and additional care.

61. Respondent failed to document the route of administration of either dose of the misoprostol in the patient's chart.

62. Respondent failed to include in the patient's medical record an operative report detailing what occurred during either of his two attempts to complete the procedure.

63. Despite the fact the patient had a prior Cesarean delivery, Respondent failed to document the location of the placenta.

COUNT I

64. Respondent's conduct as set forth above evidences negligence, in violation of section 16221(a) of the Code.

COUNT II

65. Respondent's conduct as set forth above evidences that Respondent failed to conform to minimal standards of acceptable and prevailing practice as an osteopathic physician, in violation of section 16221(b)(i) of the Code.

THEREFORE, Complainant requests that this complaint be served upon Respondent and that Respondent be offered an opportunity to show compliance with all lawful requirements for retention of the aforesaid license. If compliance is not shown, Complainant further requests that formal proceedings be commenced

pursuant to the Public Health Code, rules promulgated thereunder, and the Administrative Procedures Act of 1969, MCL 24.201 *et seq.*

RESPONDENT IS HEREBY NOTIFIED that, pursuant to section 16231(8) of the Public Health Code, Respondent has 30 days from receipt of this complaint to respond in writing to the allegations contained in it. The written response shall be submitted to the Bureau of Professional Licensing, Department of Licensing and Regulatory Affairs, P.O. Box 30670, Lansing, Michigan 48909, with a copy to the undersigned assistant attorney general. Pursuant to section 16231(9), failure to submit a written response within 30 days shall be treated as an admission of the allegations contained herein and result in transmittal of the complaint directly to the Board's Disciplinary Subcommittee for imposition of an appropriate sanction.

Respectfully Submitted,

BILL SCHUETTE
Attorney General
