A few of the services we will be offering at the centers as follows:

- Vasectomy
- Contraception services & Well Woman Care
- Late second and third trimester abortion once when medical indications are present
- Abortion by pill (Medical Abortion)
- Elective surgical abortion for first and second trimester patients
- Sexual and reproductive education and counseling for women and men

Women and men deserve access to affordable, quality health care. Health care offered in a timely and convenient manner by experienced staff in an unbiased environment. The opening of the Center for Sexual & Reproductive Health will increase access to a wide range of health care services to women and men in these underserved areas. The Center’s programs will also address the shortage of abortion providers by offering a full range of abortion plus sexual and reproductive services.

What better way to fight back than to increase access. The Abortion Access Fund, Inc. will be available and more difficult for women to obtain. We’re ready to fight back. Will you join us?

September 23rd to October 31st, 2010
