## For purposes of questions 23 and 24 the following phrases or words have the following meaning:

"Ability to practice medicine" is to be construed to include all of the following:

1. The cognitive capacity to make appropriate clinical diagnoses and exercise reasoned medical judgments and to learn and keep abreast of medical developments; and
2. The ability to communicate those judgments and medical information to patients and other health care providers, with or without the use of aids or devices, such as voice amplifiers; and
3. The physical capability to perform medical tasks such as physical examination and surgical procedures, with or without the use of aids or devices, such as corrective lenses or hearing aids.
"Medical condition" includes physiological, mental, or psychological conditions or disorders, such as but not limited to orthopedic, visual, speech, and hearing impairments, cerebral palsy, epilepsy, muscular dystrophy, multiple sclerosis, cancer, heart disease, diabetes, mental retardation, emotional or mental illness, specific learning disabilities, HIV disease, tuberculosis, drug addiction, and alcoholism.
4. 

Do you have, or have you been diagnosed as having, a medical condition which in any way impairs or limits your ability to practice medicine with reasonable skill and safety? You may answer "NO" to this question if you hold a current training certificate to pursue training in Ohio and the only such medical condition is chemical dependency or substance abuse, and you have successfully completed or are currently receiving treatment at a program approved by this board and have adhered to all statutory requirements as contained in Sections 4731.224 and 4731.25, O.R.C., and related provisions. Any questions concerning approval can be directed to the board offices.
a) Are the limitations or impairment caused by your medical condition reduced or ameliorated because you receive ongoing treatment or received treatment in the past (with or without medication) or participate in a monitoring program?

If you receive such ongoing treatment or participate in such monitoring program the board will make an individualized assessment of the nature, severity, and duration of the risk associated with an ongoing medical condition so as to determine whether an unrestricted license should be issued, whether conditions should be imposed, or whether you are not eligible for licensure. Have each treating physician submit a letter detailing the dates of treatment, diagnosis and prognosis.
b) Are the limitation or impairments caused by your medical condition reduced or ameliorated because of the field of practice, the setting, or the manner in which you have chosen to practice?
"Chemical substances" is to be construed to include alcohol, drugs, or medications including those taken pursuant to a valid prescription for legitimate medical purposes and in accordance with the prescribers direction, as well as those used illegally.
24. Do you use chemical substance(s) which in any way impair or limit your ability to practice medicine with reasonable skill and safety?
a) Are the limitations or impairment caused by your use of chemical substances reduced or ameliorated because you receive ongoing treatment (with or without medication) or participate in a monitoring program?

If you receive such ongoing treatment or participate in such monitoring program the board will make an individualized assessment of the nature, severity, and duration of the risk associated with an ongoing medical condition so as to determine whether an unrestricted license should be issued, whether conditions should be imposed, or whether you are not eligible for licensure. Have each treating physician submit a letter detailing the dates of treatment, diagnosis and prognosis.
b) Are the limitation or impairments caused by your use of chemical substances reduced or ameliorated because of the field of practice, the setting, or the manner in which you have chosen to practice?

For purposes of question 25 the following phrases or words have the following meaning:
"Currently" does not mean on the day of, or even in the weeks or months preceding the completion of this application. Rather it means recently enough so that the use of drugs may have an ongoing impact on one's functioning as a licensee, or within the past two years.
"Illegal use of controlled substances" means the use of controlled substances obtained illegally (e.g. heroin or cocaine) as well as the use of controlled substances which are not obtained pursuant to a valid prescription or not taken in accordance with the direction of a licensed healthcare practitioner.
25.

Are you currently engaged in the illegal use of controlled substances?
a) If "YES," are you currently participating in a supervised rehabilitation program or professional assistance program which monitors you in order to assure that you are not using illegal controlled substances.

## KEY TO TRANSCRIPT <br> MD Graduates 1981-2003

GRADING SYSTEM - Effective March 30, 1981 through March 31, 2002 (Qtr. 3, 2001-02)
Grades in required courses and basic clerkships are designated $A, B, C, D$, and $F$ (fail). ( +1 - modifiers used for basic clerkships for Classes of 2001, 2002 and 2003, if taken before Qtr. 3 2002)

The A grade indicates exceptional performance, the B grade indicates good to very good performance, the C grade indicates satisfactory performance, the D grade indicates that minimal course requirements have been fulfilled but that the achievement was marginal (grade initiated in March, 1981), the
F grade indicates failure to attain course requirements.
Grades in elective courses are given on an Honors-Pass-Fail basis. High Honors was added to the elective course grading system for graduates in the classes of 2001 and 2002.

GRADING SYSTEM - Effective April 1, 2002 (Qtr. 4, 2001-02)
Grades in required courses and basic clerkships are designated as follows: Honors(H), High Pass(HP), Pass( $P$ ), and Fail(F).

The Honors $\quad$| grade is awarded if a student demonstrates outstanding performance in all |
| :--- |
| components of a course with achievement beyond the expected level of training, or |
| extraordinary effort beyond the basic requirements of the curriculum. This grade |
| identifies those students who have been consistently outstanding in their |
| scholarship and professionalism. |

The $\quad$ High Pass grade is awarded if a student has demonstrated an excellent performance.

The $\quad$| The faculty are aware of the intellectual achievement of the students and have |
| :--- |
| designed a rigorous and challenging curriculum. Students who fulfill requirements at |
| the passing level are to be congratulated for this achievement. |
| grade is used for students who have failed to meet the minimum performance |
| requirements of the coursework/clerkship as defined by the course director. |

The Fail

Honors- Pass-Fail grading is used occasionally in a required course, when in the judgement of the course director, the available information is insufficient for the finer distinctions needed for letter grades.

An Incomplete (Inc.) is given in lieu of a grade when a student has not completed all components of a course.

Advanced Placement (AP) is awarded to students who show evidence of satisfactory knowledge of the material of a required course.

## Authenticity of USMLE Transcripts

#### Abstract

An original, certified transcript of United States Medical Licensing Examination scores is printed using black ink on blue safety paper and is produced only by the Educational Commission for Foreign Medical Graduates, Federation of State Medical Boards, or National Board of Medical Examiners. The TamperSafe Hologram in the lower left corner certifies the authenticity of this document. Alteration or forgery of a USMLE transcript may result in appropriate legal action and/or a determination of irregular behavior, as described below.

To Test for Authenticity: Touch, rub or breathe on TouchSafe ${ }^{\text {e }}$ Fingerprint and the word VALID will appear. When liquid bleach is applied to the face of the document, the paper will turn brown. Also, when photocopied, a security statement containing the words, UNOFFICIAL COPY, NOT AN ORIGINAL DOCUMENT, will appear prominently across the face of the entire docrument.

## INTERPRETATION OF SCORES

USMLE transcripts include a complete score history and notations of any examinations for which the examinee sat and no scores were reported, such as "Incomplete" or "Indeterminate." Scores are reported on two different scales. For each Step, the mean and standard deviation of scores on the three-digit scale for the original anchor group of first-time examinees from medical schools in the United States was 200 and 20, respectively. Most scores fall between 140 and 280. An equivalent value score on a o-digit scale is also provided. A score of 75 on the two-digit is the recommended minimum passing score. The mended minimum passing score on each scale is shown on It of the transcript next to the examinee's score for each ation administration. The level of proficiency required to e recommended minimum passing level for each USMLE reviewed periodically and is subject to change.

Ctors which influence an examinee's score include the examinee's general understanding of the subject matter being tested and the specific set of test items used for an administration. The Standard Error of Measurement (SEM) provides an index of the variation in scores that would be expected to occur if an examinee were tested repeatedly using different sets of items covering similar content. The SEM for a USMLE score is usually in the range of 4 to 8 score points on the three-digit scale and 1 to 2 score points on the two-digit scale.

## ANNOTATIONS APPEARING UNDER "COMMENTS"

Circumstances in connection with an administration shown on this transcript may result in one or more annotations listed next to the score. A description of each "Comment" is provided below:

Indeterminate - Results that cannot be certified as representing a valid measure of the examinee's knowledge or competence as sampled by the examination. Decisions to classify results as indeterminate may be made on the basis of factors that include, but are not limited to, unexplained inconsistency of performance within the examination or between administrations of the same Step. No score is reported. Information regarding the nature of the indeterminate score and the determination of the Committee on Score Validity is available. If such information is not enclosed with this transcript, it may be obtained by contacting the organization from which you received the transcript or the USMLE Secretariat, 3750 Market Street, Philadelphia, PA 19104, telephone (215) 590-9700.

Incomplete - The examinee sat for some, but not all, of the scheduled examination. No score is reported.

Irregular Behavior - The Committee on Irregular Behavior determined that the examinee engaged in irregular behavior. Examples of irregular behavior are described in the current edition of the USMLE Bulletin of Information. Information regarding the nature of the irregular behavior and the determination of the Committee is available. If such information is not enclosed with this transcript, it may be obtained by contacting the organization from which you received the transcript or the USMLE Secretariat, 3750 Market Street, Philadelphia, PA 19104, telephone (215) 590-9700.

Score Not Available - The score is not available. Further review and/or analysis may be pending, or it may have been determined that the score cannot be reported.

Test Accommodations - Following review and approval of a request from the examinee, test accommodations were provided in the administration of the examination.

## ANNOTATIONS APPEARING AS "NOTE"

Circumstances not in connection with an administration shown on this transcript may result in one or more annotations and an explanation or instructions to contact the appropriate individual or organization. The "Note" will appear at the end of the document.

## BOARD ACTION DATA BANK INFORMATION APPEARING AS "NOTE"

The Board Action Data Bank of the Federation of State Medical Boards (FSMB) contains actions reported to the FSMB by U.S. licensing and disciplinary boards, Canadian licensing authorities, the U.S. Armed Forces, the U.S. Department of Health and Human Services, and other credentialing entities. To be included in the Bank, an action must be a matter of public record or be legally releasable to state medical boards or other entities with recognized authority to review physician credentials. Certain actions reported to and released by the Board Action Data Bank are not disciplinary or otherwise prejudicial in nature. Such actions are reported to ensure that records are complete and to assist in preventing misrepresentation or the use of lost or stolen credentials by unauthorized persons. Once reported to the FSMB, an action becomes part of the permanent record of the individual physician, and the existence of such an action may be indicated on the USMLE transcript by a "Note".
