Hi Cindy, your inquiry has been forwarded on to me.

I scanned our Medical Malpractice claim database, and was only able to find claim information for Kathryn Eggleston:

Kathryn Louise Eggleston

Accident Date: September 2011

Nature of Claim: Alleged negligent abortion resulting in hospitalization for suction d&c to removed retained products of conception

Closed date: February 2014

Claim was not pursued

Our database doesn't track the docket number or the court location you requested.

Please let me know if you need anything further.

Sincerely,
