Re: Complaint No. 97-053

Dear Dr. Orkin:

The Complaint Committee of the Board has considered the above referenced complaint and has determined that no further action is warranted. The complaint has been dismissed. Board staff, however, wished to offer you advice in regard to the patient's perception of insensitivity on your part. While a patient's perception in the midst of a traumatic situation might be inaccurate, any effort a physician might make to be sensitive to the patient's experience, such as covering specimens, will likely go a long way in making the experience easier to bear.

Thank you for your cooperation in the investigation of this matter. The Committee appreciates the time and effort which you expended in preparing your response. If you have any questions, please call me at (617) 727-1788, Ext. 375, or write to me at the above address.

Sincerely,

Deirdre K. Manning

Docket #: 97-053

In response to complaint I'd like to provide following information:

was a patient at Crittenton Hasting House for pregnancy termination. She was referred by MGH where she was a patient for some time. Her past medical history is significant for vestibulitis-disease that can cause significant pain in the vulva. underwent numerous vulvovaginal surgeries to alleviate her pains and subsequently was taking Zoloft to relief her symptoms. She also has a history of pelvic and vaginal infections, including herpes genitalis. developed hepatitis secondary to anesthesia.

Crittenton Hasting House is facility that provides different services including pregnancy termination. Upon arrival patients stay on the first floor where they complete different forms and undergo extensive counseling. This process takes some time until all the patient's questions and concerns are resolved. After this process is completed the patient is taken to the third floor by a medical assistant. The medical assistant brings in the chart, helps the patient to change into appropriate clothes and takes her to the waiting room. Patients are taken for procedure, in the order that they arrived, on the third floor. Until this time the physician has no contact with the patient. In the procedure room an internal exam is performed with lubricated gloves in order to make it more comfortable and to alleviate discomfort from speculum insertion. Knowing history, all was done very carefully along with paracervical anesthesia for which she received 20 cc of 1% xylocaine. Her cervical canal was dilated after that. Suction was done. It is routine procedure to withdraw and reinsert suction in order to assure that all tissue is removed. A sharp curette was not used during Ms. procedure. There were no complications of procedure as well as no that recorded that she passed out or vomited, although local injections of xylocaine can cause unusual sensations in the mouth and the patient can become light headed. The physician then leaves the room after being assured that patient is doing well. The medical assistant takes care of the patient after that. Sometimes, especially when patient has early pregnancy(as in case) it is essential to examine the tissue to assure completeness of the procedure. Instruments and tissues are covered before taking them out of the room.

There is a bathroom on the third floor which has three separate cabins with locks inside of each door. One of the rooms has a sign for use by medical personnel, including doctors. There is also a scrub room which is located separate from the recovery and rest rooms. The scrub room is so small that it can accommodate only one person and that person can change clothes only when the door is closed. Medical personnel change their clothes before and after each session.

I feel sympathetic to h' concerns and hope that this explanation will satisfy all parties involved, but if it will be needed, we can arrange a meeting in the Crittenton Hasting House territory between the Board investigator and myself in order to clarify any issue.

Respectfully, Boris Orkin, M.D. B Orkin, M.D

## ADDENDUM TO COMPLAINT FORM

1) Referred by MGH to Crittenton for pregnancy termination, as fetus was not viable per MGH recommendation. MGH assured me I would be given anesthesia or a sedative for pain management.
2) Allergic to some forms of general anesthesia, which was reported to Crittenton in advance of my procedure.
3) I was told that Setinol would be used at Crittenton, as it is not a general anesthetic agent. Told to bring records "just in case."
4) Abortion to be performed at 6 weeks, 5 days into term.
5) Waited in waiting room from 7:45 AM until 11 AM. Was informed just before procedure that no anesthesia or pain management drugs would be provided, but the operation would be only "slightly uncomfortable, similar to menstrual cramps." As they looked at my medical records, I was told that this would be a cake-walk compared to my surgeries in the past.
6) Made to undress, give urine sample, then sit in tiny room with 5 other girls for an additional hour.
7) When asked into procedure room, made to wait again while Orkin located nurse to assist.
8) Placed in stirrups, speculum then roughly inserted.
9) Lidocaine injected and dilators shoved into cervix simultaneously, which meant lidocaine had not been given time to act.
10) Aspirator roughly shoved in and out until uterine lining removed. Again, lidocaine still hadn't set in, so extreme pain. Curette scraping as well.
11) Worst pain ever experienced, and I have been through some extreme surgical procedures and never complained. Screaming to stop and give something for the pain. Broke into sweat, passed out, vomited.
12) Carried off table, sanitary napkin shoved between legs. Continued vomiting and sweating.
13) Jar full of blood and presumably fetus was paraded in front of me as they left the room.
14) Had to urinate and Orkin follows me in and uses stall next to mine. Too weak to protest this further humiliation and violation.
15) Orkin then changed in doorway in my full view.
16) I continue to have nightmares to this day. I feel raped. Do not let this happen to anyone else.

## NATIONAL PROVIDER IDENTIFIER (NPI)

The primary purpose of the NPI is to uniquely identify health care providers as "health care providers" in HIPAA standard transactions. The NPI will replace all other identifiers assigned to health care providers, such as those assigned by health plans, government programs and health care purchasers for purposes of conducting these business transactions.

Under the final HIPAA NPI Rule, all individual and organization covered providers will be required to obtain an NPI by May 23, 2007.

**In order for your license to be renewed you must take one of the following actions:**

Option 1: Supply the Board of Registration in Medicine with your valid NPI. You can apply for an NPI directly by using the NPPES web site at www.NPPES.cms.hhs.gov.

Option 2: Certify you have personally applied for your NPI and you have not received it yet. Once you have received your NPI Number, you must notify the Board. Please complete the NPI form at the Board's web site at www.massmedboard.org.

Option 3: Certify another authorized institution has applied for an NPI on your behalf and you have not received it yet (supply institution's name). Once you have received your NPI Number, you must notify the Board by completing the NPI form at the Board's website (see Option 2).

Option 4: Authorize the Board of Registration in Medicine to apply for an NPI on your behalf.

Option 5: If your license status is INACTIVE, you may elect not to obtain an NPI number.

Check the appropriate box below, supply appropriate information, and sign the bottom of the page.

☑ My current NPI is: 1 4 2 7 0 5 9 3 3 8

☐ I have personally applied for an NPI. (You must provide your NPI number to the Board when received.)

☐ I have applied for an NPI using a third party (enter name): _____ (follow instructions for Option 3)

☐ By checking this option and signing the bottom of this page, I hereby authorize the Board to apply for an NPI on my behalf.

☐ As an *inactive* physician, I do not wish to obtain an NPI.

## HIPAA TAXONOMY CODES

Please provide the HIPAA taxonomy (specialty) codes (refer to Renewal Instructions, page 21 for more information). In addition to providing the taxonomy code, please indicate your specialty in the space provided (Taxonomy Description). The primary provider taxonomy code is required if you authorize BORIM to apply for an NPI on your behalf.

| | Taxonomy (Specialty) Code | Taxonomy Description (Print) |

### Penalties for Falsifying Information on the National Provider Identifier Application

18 U.S.C. 1001 authorizes criminal penalties against an individual who in any matter within the jurisdiction of any department or agency of the United States knowingly and willfully falsifies, conceals or covers up by any trick, scheme or device a material fact, or makes any false, fictitious or fraudulent statements or representations, or makes any false writing or document knowing the same to contain any false, fictitious or fraudulent statement or entry. Individual offenders are subject to fines of up to $250,000 and imprisonment for up to five years. Offenders that are organizations are subject to fines of up to $500,000. 18 U.S.C. 3571(d) also authorizes fines of up to twice the gross gain derived by the offender if it is greater than the amount specifically authorized by the sentencing statute.

### Authorization for NPI Dissemination
