AND REINSTATING LICENSE

On November 18, 1992, Romeo A. Ferrer, M.D. (the "Respondent"), entered into a Consent Order with the Board of Physician Quality Assurance (the "Board").<sup>1</sup>

Pursuant to the terms of the Consent Order, Respondent was reprimanded and subjected to a monitor program with various conditions and a peer review.

Under the terms of the Order, before Respondent performs a major procedure, Respondent will select a Board certified obstetrician/gynecologist to proctor the procedure and within ten days of completion of a major procedure, Respondent shall forward the Proctor's report to the Board. Pursuant to the Consent Order, as of December 1, 1993, the Respondent shall be permitted to perform all procedures without proctoring and without Board ordered supervision.

On January 10, 1994, the Board received the peer review report from the Peer Review Management Committee. The report concluded that there was no instances of substandard care.
