

CITY OF PHOENIX POLICE DEPARTMENT
All Calls for Service (Non-Dispatched/Dispatched/Callback/Self-Initiated)
Address(es): 5651 N 7TH ST
01/01/2014 - 12/31/2014

Counts of all calls include those calls that were dispatched or self-initiated as well as those that were cancelled, filed, or stored, and may include multiple calls for the same incident.

Total Dispatched/Callback/Self-Initiated Calls:			6			
Total of All Calls:			13			

* These calls have a disposition of cancelled, filed, or stored (non-dispatched) and represent calls handled by Communications Operators, calls transferred to another city department/law enforcement agency, multiple calls for a single incident, etc.

The calls for service data are generated based on specific address information. Any calls for service that had missing or incorrect address information may not be properly depicted in this report. Disposition Code of "Other Report" refers to when an Alarm Card, Field Interrogation Card, or other report type was written. Copies of individual reports are available for a fee through Public Records at 1717 E Grant St, Suite 100, Phoenix, AZ 85034. Apartment numbers, unit numbers or suite numbers are not always entered in the data. Therefore, this report reflects counts based on address information without specifying apartment/unit/suite numbers. This means that any incident at the same street address would be included in the count regardless of the apartment/unit/suite number. Calls are based on the final call type as entered by Communications and/or Patrol. All calls are included regardless of the final disposition of the call (ie. report written, no action required, etc.). Implementation of a new Computer Aided Dispatch (CAD) system occurred March 9, 2010. New radio codes are periodically added; use caution when comparing totals across years.
