NATIONAL PROVIDER IDENTIFIER (NPI)

The primary purpose of the NPI is to uniquely identify health care providers as "health care providers" in HIPAA standard transactions. The NPI will replace all other identifiers assigned to health care providers, such as those assigned by health plans, government programs and health care purchasers for purposes of conducting these business transactions.

Under the final HIPAA NPI Rule, all individual and organization covered providers will be required to obtain an NPI by May 23, 2007.

In order for your license to be renewed you must take one of the following actions:

Option 1: Supply the Board of Registration in Medicine with your valid NPI. You can apply for an NPI directly by using the NPPES web site at www.NPPES.cms.hhs.gov.

Option 2: Certify you have personally applied for your NPI and you have not received it yet. Once you have received your NPI Number, you must notify the Board. Please complete the NPI form at the Board's web site at www.massmedboard.org.

Option 3: Certify another authorized institution has applied for an NPI on your behalf and you have not received it yet (supply institution's name). Once you have received your NPI Number, you must notify the Board by completing the NPI form at the Board's website (see Option 2).

Option 4: Authorize the Board of Registration in Medicine to apply for an NPI on your behalf.

Check the appropriate box below, supply appropriate information, and sign the bottom of the page.

☐ My current NPI is: ☐☐☐☐☐☐☐☐☐☐

☐ I have personally applied for an NPI.

☒ I have applied for an NPI using a third party (enter name): BWPO (follow instructions for Option 3)

☐ By checking this option and signing the bottom of this page, I hereby authorize the Board to apply for an NPI on my behalf.

Please provide the HIPAA taxonomy (specialty) codes (refer to Renewal Instructions, page 13 for more information). Individual offenders are subject to fines of up to $250,000 and imprisonment for up to five years. VII. Malpractice Information

Some studies have shown that there is no significant correlation between malpractice history and a doctor's competence. At the same time, the Board believes that consumers should have access to malpractice information. In these profiles, the Board has given you information about both the malpractice history of the physician's specialty and the physician's history of payments. The Board has placed payment amounts into three statistical categories: below average, average, and above average. To make the best health care decisions, you should view this information in perspective. You could miss an opportunity for high quality care by selecting a doctor based solely on malpractice history. When considering malpractice data, please keep in mind:

- Malpractice histories tend to vary by specialty. Some specialties are more likely than others to be the subject of litigation. This report compares doctors only to the members of their specialty, not to all doctors, in order to make individual doctor's history more meaningful.
- This report reflects data for the last 10 years of a doctor's practice. For doctors practicing less than 10 years, the data covers their total years of practice. You should take into account how long the doctor has been in practice when considering malpractice averages.
- The incident causing the malpractice claim may have happened years before a payment is finally made. Sometimes, it takes a long time for a malpractice lawsuit to move through the legal system.
- Some doctors work primarily with high risk patients. These doctors may have malpractice histories that are higher than average because they specialize in cases or patients who are at very high risk for problems.
- Settlement of a claim may occur for a variety of reasons which do not necessarily reflect negatively on the professional competence or conduct of the physician. A payment in settlement of a medical malpractice action or claim should not be construed as creating a presumption that medical malpractice has occurred.

You may wish to discuss information provided in this report, and malpractice generally, with your doctor. The Board can refer you to other articles on this subject.

Dr. Allen has not made a payment on a malpractice claim in Massachusetts in the past ten years.
