ORDER TERMINATING PROBATION

On October 23, 2013, the Maryland State Board of Physicians (the “Board”) and the Respondent, Iris E. Dominy, M.D., entered into a Consent Order. Under the Consent Order, the Respondent was reprimanded and was required to fulfill various terms and conditions.

One condition placed the Respondent on probation, which commenced on the date of the Consent Order and was to continue until the Respondent successfully complied with the following: “The Respondent shall successfully complete at least sixteen (16) Category I continuing medical education (“CME”) credit hours in moderate sedation and monitoring practices involving moderate sedation.” The Respondent was required to seek Board approval of the course(s) and was required to submit written documentation of her completion of the course(s). The Consent Order further stated that the Respondent may not use this coursework to fulfill any requirements mandated for licensure renewal.

The Respondent has provided the Board with documentation of completion of the course(s) that were proposed by the Respondent and approved by the Board. It is hereby:

ORDERED that the Respondent’s probation is **TERMINATED**; and it is further

ORDERED that the other terms and conditions of the Consent Order, dated October 23, 2013, remain in effect. The Respondent must, therefore, fully comply with the following terms and conditions:

1. The Respondent shall maintain Advanced Cardiac Life Support (“ACLS”) certification as provided by the American Heart Association and shall provide the Board with verification of her ACLS certification; and

2. Upon completion of the 16 CME credit hours in moderate sedation and monitoring, the Respondent shall submit to the Board for approval a written plan for sedation monitoring. The Respondent shall not administer anesthesia (moderate or deep sedation) until the Board approves her sedation monitoring plan; and

3. If the Board approves the Respondent’s sedation monitoring plan, the Respondent may administer moderate sedation in practice settings approved by the Board, and the Respondent shall comply with the Board-approved sedation monitoring plan; and

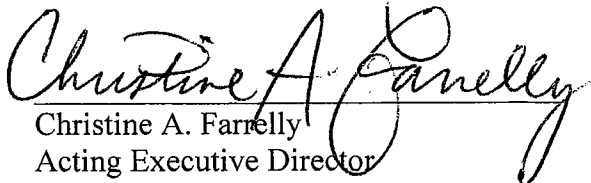

4. The Board reserves the right to conduct a peer review by an appropriate peer review entity, or a chart review by a Board designee, to be determined at the discretion of the Board. And it is further

ORDERED that the Respondent shall be responsible for all costs incurred in fulfilling the terms and conditions of this Order; and it is further

ORDERED that if the Respondent violates any term or condition of this Order, the Board or Board panel, after notice, opportunity to be heard, and determination of a violation, may impose any other disciplinary sanctions it deems appropriate, including a reprimand, probation, the revocation or suspension of the Respondent’s medical license, and/or fine, with said violation being proven by a preponderance of the evidence; and it is further

ORDERED that this is a **PUBLIC DOCUMENT**.
