RIDGEFIELD, N.J. -- Ridgefield police had to call in the National Guard to haul away 100,000 rounds of ammunition after finding nearly 500 guns in an elderly couple's home.

The weapons range from pistols to machine guns.

The home belongs to Sherwin and Elizabeth Raymond. Both are 82 years old.

She suffers from Alzheimer's disease. He was a physician and gun enthusiast who was arrested in 1974 and charged with selling submachine guns, grenades and other weapons to two undercover federal agents.

He's now charged with creating a hazardous situation and could face other charges.

Federal officials plan to begin tracing the weapons to determine whether they were legally obtained and ever used in a crime.
