In accordance with announcements made by the National Board of Medical Examiners scores. This scoring system was initiated with the to all subsequent examinations in Part I, Part II and Part III. Because candidates normally take the various times, it is recognized that for a few years some in of the test and scale-score grades for other section test can be reported in terms of standard scores. scale-score equivalents are provided for examinations for which the official report is recorded in standard-score terms (June, 1971 and later).

The National Board criterion for certification is based upon the candidate's total grade in Part I, Part II and Part III. Scores in individual subjects within each Part (e.g., Anatomy, Physiology, Medicine, Pediatrics, etc.) are not considered in determining whether the candidate has passed the Part. Therefore, official "pass-fail" scores are established for the total grade on each Part, but not for individual subjects within the Part.

NOTE:—If by written examination the secretary should further certify.

I further certify that the aforesaid Richard Oliver David, M. D. in his written examination before this Board, obtained a general average of 83.0 per cent. in the following branches:
