We have audited the accompanying consolidated financial statements of Planned Parenthood League of Massachusetts, Inc. and Subsidiary (the Organization) (a nonprofit organization), which comprise the consolidated statement of financial position as of June 30, 2014, and the related consolidated statements of activities, functional expenses, and cash flows for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Organization's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Organization's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Planned Parenthood League of Massachusetts, Inc. and Subsidiary as of June 30, 2014, and the changes their net assets and their cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Report on Summarized Comparative Information

Daniel Demice & Company LLP

2. Summary of Significant Accounting Policies

Principles of Consolidation

The accompanying consolidated financial statements include the accounts of Planned Parenthood League of Massachusetts, Inc. and its wholly owned subsidiary, 470 Pleasant Street Holdings Company, Inc. All material inter-company transactions have been eliminated in these consolidated financial statements.

470 Pleasant Street Holdings Company, Inc. was formed as a not-for-profit organization under the laws of the Commonwealth of Massachusetts on December 28, 2009.

Cash and Cash Equivalents

Net Asset Classification

Accounting standards require classification of an entity's net assets, revenues, expenses, gains and losses into three classes of net assets as follows:

Unrestricted Net Assets - consist of assets, public support and program revenues, which are available and used for operations and programs. Contributions are considered available for unrestricted use unless specifically restricted by the donor. Operating net assets represent funds available for current operations other than plant and equipment.

Temporarily Restricted Net Assets - include the Organization's funds with donor-imposed restrictions relevant to time or purpose. These resources are released upon meeting the purpose restrictions or the passage of time and are then reflected as "net assets released from restrictions." Resources of this nature originate from gifts, grants, bequests and investment income earned on restricted funds.

Permanently Restricted Net Assets - include resources with a permanent donor-imposed restriction, which stipulates that the assets are to be maintained permanently, but permits the Organization to expend part or all of the income derived from the donated assets. In certain cases, donors have stipulated that accumulated unspent gains are considered permanently restricted. Accordingly, such amounts have been reflected as permanently restricted net assets.

Fair Value Measurements

Investments are reported using a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are as follows:

- Level 1 Inputs are quoted prices (unadjusted) in active markets for identical investments that the Organization has the ability to access at the measurement date.
- Level 2 Inputs are measurements other than quoted prices included within Level 1 that are observable for the investments, either directly or indirectly.
- Level 3 Inputs are unobservable inputs for the investments.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Investments

The Organization carries investments in marketable securities at fair value in the Consolidated Statement of Financial Position. Realized and unrealized gains and losses are reflected in the Consolidated Statement of Activities. Investment income and gains and losses are recorded as increases or decreases in unrestricted net assets unless a donor or law temporarily or permanently restricts their use.

2. Summary of Significant Accounting Policies - continued

Accounts Receivable

Accounts receivables are presented net of the allowance for doubtful accounts. The Organization's periodic evaluation of the adequacy of the allowance is based on its past experience. Accounts receivable are charged off when all efforts to collect the account have been exhausted and the amounts have been sent to collection agencies. Any recovery is recorded when received.

Inventories

Inventories purchased for use in program and supporting services are carried at the lower of cost or market. Cost is determined using the first-in, first-out method.

Land, Buildings and Equipment

Land, buildings and equipment are recorded at cost or at fair market value at the date of donation. The Organization capitalizes all fixed assets costing greater than \$2,000. Depreciation is calculated using the straight-line method over the estimated useful lives of the assets. Estimated useful lives are 40 years for buildings, 20 years or the remaining life of the lease for building improvements and 3 to 10 years for furniture and equipment.

Long lived assets, such as buildings are reviewed on an ongoing basis for impairment whenever events or changes in circumstances indicate that the carrying value may not be recoverable. Recoverability is measured by a comparison of the carrying amount of the asset to the future net undiscounted cash flow expected to be generated by the asset including any estimated proceeds from the eventual disposition of the asset. If the asset is considered to be impaired, the impairment to be recognized is measured at the amount by which the carrying amount of the asset exceeds its fair value. As of June 30, 2014, management has determined that there has been no impairment of the long lived assets.

Finance and Lease Acquisition Fees

Finance and lease acquisition fees include costs incurred negotiating the lease for the building located in Springfield, Massachusetts and the financing fees associated with the refinancing of the Worcester, Massachusetts building debt. The costs are amortized on a straight line basis over the remaining term of the lease for the building in Springfield and the term of the loan for the building in Worcester.

Revenue and Expenses

The Organization prepares its consolidated financial statement on the accrual basis of accounting. Accordingly, revenue is recorded when earned and expenses recorded when goods are received or services rendered.

Deferred Revenue

Revenue is recognized when earned, however funds received that are not earned as of year-end are recorded under liabilities as deferred revenue.

Notes to the Consolidated Financial Statements June 30, 2014 with Comparative Totals as of June 30, 2013

2. Summary of Significant Accounting Policies - continued

Medical Services Revenue

The Organization recognizes medical services revenue at its standard charges with a reduction for contractual allowances for those patients with third party payer coverage. For uninsured patients, the Organization recognizes revenue on the basis of its standard rates for services provided with a reduction for a self-pay discount. On the basis of historical experience a significant portion of the Organization's uninsured patients will be unable or unwilling to pay for the services provided. Therefore, the Organization records a significant allowance for doubtful accounts related to uninsured patients in the period the services are provided. Medical service revenue, net of contractual allowances and discounts, but before the allowance for doubtful account, recognized in fiscal years 2014 and 2013 is as follows:

2014	Third Party Payors	Self Pay	Total
Medical Service Revenue, net of contractual allowances	\$ 11,637,776	\$ 2,269,738	\$ 13,907,514
2013	Third Party Payors	Self Pay	Total
Medical Service Revenue, net of contractual allowances	\$ 10,811,356	\$ 2,538,284	\$ 13,349,640

Contributions

The Organization distinguishes between contributions received for each net asset category in accordance with donor imposed restrictions. Contributions may include gifts of cash, collection items or promises to give. Such contributions are considered to be available for unrestricted use unless specifically restricted by the donor. Amounts received that are designated for future periods or restricted by the donor for specific purposes are reported as temporarily restricted or permanently restricted support that increases those net asset classes.

Unconditional promises to give that are expected to be collected within one year are recorded at net realizable value. Unconditional promises to give that are expected to be collected in future years are recorded at the present value of their estimated future cash flows.

Donated Services and Materials

The Organization records various types of in-kind support including contributed facilities, professional services, advertising and materials. Contributed professional services are recognized if the services received (a) create or enhance long-lived assets, or (b) require specialized skills, are provided by individuals possessing those skills, and would typically need to be purchased if not donated. Such donations are recorded as contributions in the financial statements. Donated materials are recorded at the fair value at the date of the gift. For the fiscal years ended June 30, 2014 and 2013, the value of donated services and materials recognized was \$90,488 and \$123,584, respectively.

Notes to the Consolidated Financial Statements June 30, 2014 with Comparative Totals as of June 30, 2013

2. Summary of Significant Accounting Policies - continued

Donated Services and Materials - continued

Additionally, the Organization receives a significant amount of skilled contributed services, which does not meet the two recognition criteria described above. Accordingly, the value of these contributed services is not reflected in the accompanying financial statements. For the years ended June 30, 2014 and 2013 the Organization received \$31,728 and \$56,510, respectively in non-professional volunteer services.

Income Tax Status

The Organization is exempt from federal income taxes under Section 501(c)(3) of the Internal Revenue Code. The Organization is also exempt from Massachusetts income taxes. Unrelated business income, of which there was none for the fiscal years ended June 30, 2014 and 2013, would be subject to Federal and state income taxes. Consequently, the accompanying financial statements do not reflect any provision for income taxes.

As of June 30, 2014, the Organization has evaluated the tax positions taken in its previously filed returns and those expected to be taken in its 2014 returns, and believes they are *more-likely-than-not* of being sustained if examined by Federal or state tax authorities. The Organization's 2010 through 2013 tax years remain subject to examination by Federal and state tax authorities.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Functional Expenses

The costs of providing the Organization's programs and other activities have been summarized on a functional basis in the *Consolidated Statement of Functional Expenses*. Direct expenses are charged to programs and supporting services. Expenses related to more than one function are charged to programs and supporting services benefitted.

Summarized Comparative Information

The consolidated financial statements include certain prior-year summarized comparative information in total but not by net asset class. Such information does not include sufficient detail to constitute a presentation in conformity with accounting principles generally accepted in the United States of America. Accordingly, such information should be read in conjunction with the Organization's financial statements for the year ended June 30, 2013, from which the summarized information was derived.

Notes to the Consolidated Financial Statements June 30, 2014 with Comparative Totals as of June 30, 2013

3. Significant Concentrations

Credit Risk

Cash at the financial institutions with which the Organization maintains its accounts are insured by the Federal Deposit Insurance Corporation (FDIC). At times during the year these accounts exceed the FDIC insurance limit. The Organization has not experienced any losses in such accounts and does not believe it is exposed to any significant credit risk on cash.

4. Investments

As of June 30, 2014, the Organization's investment accounts are maintained at one financial institution. The investments are subject to market fluctuations and due to the level of risk associated with investments, it is at least reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect the consolidated financial statements.

At June 30, 2014 and 2013, investments are measured at fair value on a recurring basis and consisted of the following:

However, one the Organization's donors provided the following restriction on the net appreciation; a portion of interest and dividends earned on the permanently restricted net assets, not to exceed 5% annually, may be used to support the operations of the Organization.
