## Two Women Victimized by Botched Abortions at NAF Centers

[State](#) Steven Ertelt Apr 12, 2011 | 4:29PM Milwaukee, WI

As the National Abortion Federation prepares for its annual conference in Chicago this week, one of its former board members sent two women to the hospital in separate botched abortion incidents.

Two women were transported for emergency care in one day from the **Affiliated Medical Services** abortion business located at 1428 North Farwell Avenue in Milwaukee, Wisconsin. The condition of the two women is currently unknown. Operation Rescue officials informed LifeNews about the two incidents, which took place on Friday less than two hours apart.

The first ambulance arrived with sirens blaring and lights flashing at about 10:50 a.m. OR indicated. The pro-life participants in a 40 Days for Life prayer vigil witnessed the incident and one person recorded it on his telephone video recorder. Dan Miller, Milwaukee coordinator for 40 Days for Life provided Operation Rescue with the raw video.

After some time, emergency workers emerged from the abortion center with a woman on a gurney as abortion facility escorts held up a blanket or dark sheet to hide the incident from the pro-life witnesses who were documenting it. The woman was rushed to Columbia St. Mary's Hospital.

At approximately 12:55 p.m., the second ambulance arrived, this time without lights or sirens. The video shows an ambulance of a different color and parked in a different place, leaving no doubt that there were two separate incidents. Again, clinic escorts held up a dark sheet to conceal the woman on a gurney that was loaded into the awaiting ambulance and taken to an unknown location.

“The abortionist cannot hide his dirty work behind ‘sheets of shame.’ While we only see a small fraction of the abortion injuries inflicted upon women, the truth about unsafe clinics and shoddy abortionists continues to come out,” said Operation Rescue President Troy Newman. “These are two more urgent reasons why our tax dollars must not fund abortion providers.”

Newman said the abortion practitioner on duty at Affiliated Medical Services at the time was Bernard Smith, a current member of the NAF, who boasts on his website of having “expertise in Quality Assurance and safe clinical practice.”

“Unfortunately, that so-called expertise failed the two women and their babies who landed in the hospital,” Newman said. “Smith sent two women to the hospital. Now it’s time for the authorities to hold him accountable for the injuries he caused. We will be filing a complaint with the Wisconsin Department of Regulation & Licensing based on these two emergency transports.”
