

Evil Cloaked in Normalcy

Original article found online at: <http://www.operationsaveamerica.org/articles/articles/evil-cloaked-in-normalcy.htm.html>

By Rev. Mike Warren Rescue Rochester

It sits on a busy city street in an upscale business district surrounded by other office complexes with an inviting shopping center just down the road. Across the street are a fancy retirement community, an old farmhouse and a portion of woods. A nearby neighbor is a seeker friendly church and a daycare center and a well know restaurant and bar. The building itself is new modern and inviting. It has an English Tudor décor with ample parking and beautifully landscaped grounds that are meticulously maintained. There is never any trash found in the parking lot and the snow is always plowed from the parking spaces and the walk always shoveled to make access easy and "safe." But if one looks carefully or watched any of the news shows one would see that it is a different type of building.

Its owner has described it as a bunker with bulletproof one-way glass and bombproof reinforcements built into the walls and landscaping mounds. The mail is handled in a secure location just in case. The grounds are monitored by a sophisticated video surveillance system and a disembodied voice can speak to those on the sidewalk through a remote PA system. **And every week 10-20 children are murdered in this pristine building's examination rooms. It is the new location of Dr. Morris Wortman's abortion clinic.** And it is where the few Christians working with Rescue Rochester find themselves on hot summer days, hopeful spring times, crisp cool fall afternoons or bitter winter mornings.

Yearly, 100's of babies are killed in this "normal" medical office building. We know that woman have been hurt and forever changed by walking through the inviting doors. Its owner, Dr. Morris Wortman, is responsible for the death of thousands of babies and the wounding of hundreds of woman over his career as an ABORTIONIST/obgyn in the Rochester, NY area. He lives just down the road in an upscale home in an upscale neighborhood. He has medical privileges and teaching credentials with a world-renowned teaching hospital and university in town. Prior to moving to his brand new location he rented for a number of years from one of the largest real estate development businesses in the country whose controlling partners were well known Christian businessmen.

Evil is never more dangerous than when cloaked in the guise of normalcy. Day by day, week-by-week, year-by-year, hundreds and thousands of children are brutally killed in this man's beautiful building. The blood of these innocents is washed down the drain and the Medical Waste Service truck faithfully picks up their remains. People walk up to us on the sidewalk and ask, incredulously, there's an abortion clinic in there? The cars with the Christian Radio Bumper stickers pull into the parking lot and some of the passengers answer our cries for them to leave with the justification, " I'm not here for an abortion. ", "Stop judging!", or " These woman are already upset, you should be ashamed of yourself for showing them pictures that will only make them feel worse."

Truly, **Evil is never more dangerous than when cloaked in the guise of normalcy.**
