Had an appt 5/25/17 @ 2:30 for a f/u from ER. I got there 5min b4 my appt. After providing a urine I sat down and waited about 7-10min, this is a fair time to wait, my opinion. The MA take took me back was naturally friendly. Waited the exam room for 10min. Doc came in w/ med student(I had consented when I was room). Doc listen and addressed my issues genuinely. Total time there roughly 35min. Everyone I encountered was nice except the med student, she seemed cold and bored.

Brandi was awesome! I had my IUD changed and was really nervous about it. She walked me through everything and had it done fast and to the point. I'm super glad she was my MD, thank you Brandi!

I was very nervous getting my IUD replaced because it was so painful the first time. However, I was presently surprised at how much it was. It was still uncomfortable, but compared to last time a total breeze. I accredit this to Dr. Ring! She knows what she is doing and made me feel as at ease as I could be.

Dr Ring was amazing - really personable and willing to talk about issues that I brought up. I felt very comfortable. There was also a student doctor in the appointment (they asked beforehand of course) and she was great at well. Really love this office!

Dr. Ring is an excellent physician. Further, she and her staff never fail to make a sometimes awkward visit comfortable, expertly balancing professionalism with friendliness. I have already recommended Mile High OBGYN and, Dr. Ring in particular, to many friends and will continue to do so! Every single person I recommend to them has come away equally impressed.

Dr. Ring was very nice, polite and real. Made great conversation and made an effort to make what is a pretty invasive appt to start with, feel less invasive but just being personable. I felt very comfortable and also felt like I was getting the info I needed when I asked questions. Overall, very happy.
