Fellowship Directory

University of Arizona Health Science Center

Director:

[Kathryn L. Reed, MD](#)

Address:

Dept. of OB/GYN, Arizona Health Sciences Ctr., 1501 No. Campbell Ave.
Tucson, Arizona 85724

Phone #:

(520) 626-6174

Fax #:

(520) 626-5115

Salary (1st yr):

\$55,384.00

Prerequisites:

ABOG eligibility and a state medical license are REQUIRED.

Positions (1st yr):

1

Additional Information

Fellows are expected to attain a high level of expertise in the subspecialty, including clinical skills, research, and provision of excellent, comprehensive care. Training occurs at two major sites, with faculty and resources provided by the University of Arizona faculty in Tucson and by faculty from Phoenix Perinatal Associates and Banner Good Samaritan Medical Center (also appointed faculty of the University of Arizona) in Phoenix. Prenatal diagnostic skills, including genetic counseling, targeted ultrasound and fetal and Doppler echocardiography are important components of the fellowship. Critical care, multiple gestation management and invasive fetal diagnosis and therapy are emphasized at the Phoenix site. Research programs are currently in

place in both the obstetrics and gynecology departments and in departments which work closely with obstetrics and gynecology, such as neonatology, genetics/dysmorphology, pediatric and adult cardiology, and the Cancer Center. A fully-equipped large animal laboratory is available, as well as basic science laboratory space. A minimum of three months and a maximum of nine months of the fellowship can be spent in Phoenix. Additional opportunities exist for practice management and leadership development, as the fellowship combines academic and private practice Maternal-Fetal Medicine experience. The geographical location and singularity of the medical school in Arizona allow ready access to a large population of patients, including those with unique cultural and genetic backgrounds, and other citizens of the state who seek care from the medical school.

Program Courses (in months)

Research/Didactic:

18

Clinical MFM:

12

Elective Time:

6

Graduate Courses

Name	Type
Statistics/Epidemiology	Mandatory
Research Methodology	Mandatory
Genetics/Molecular Biology	Recommended
Embryology/Teratology	Offered
Computer Science	Offered
Physiology	Offered
Infectious Disease	Offered

Degrees

MPH

MFM Faculty

Name	Interests
Kathryn L. Reed, MD	USG, CRD, GEN, APT, FPH
Karen Lesser, MD	DBM, MCP, USG, APT, FSG
James Maciulla, MD	APT, CLN, FSG, MCP, EDU
Lynn Coppola, MD	APT, MCP, PRM
William Clewell, MD	FPH, FSG
John Elliott, MD	PRM, HTN
Rod Edwards, MD	INF
Michael Foley, MD	CCU, MCP

Other Faculty

Name	Interests
Chris Cunniff, MD	GEN, EMB, DRG
Harris Finberg, MD	USG
Dee Quinn, RN, MS	GEN, EMB
Leslie Benson, MS	GEN, EMB
Craig Palmer, MD	ANS, MCP, CCU
John Davis, MD	PTH, GEN, EMB
Alan Bedrick, MD	NEO
Ken Hatch, MD	CAN
Caroline Anderson, RDMS	USG
