I am a board-certified physician specializing in obstetrics and gynecology. I have professional interests in gynecologic surgical procedures, urinary incontinence, pelvic organ prolapse and robotic surgery.

Listen to me on The WELLcast: [The mysteries of polycystic ovary syndrome](#)

Read my Healthy Set Go articles: [Ten truths about polycystic ovary syndrome](#)

Hometown: Viborg, South Dakota

Best part of my work: is interacting with patients.

How I spend my free time: I spend my free time with my husband, Kurt and our two boys Miles (5 yrs), Mason (3 yrs) and our dogs Breve and Mocha.

What patients say about me: Patients tell me I am real, down to earth and that I make them feel comfortable.

Practice philosophy: I believe people are and should be the ultimate decision makers regarding their health and health care. The role of the physician is to provide information and make recommendations so the patient can make an informed decision within the context of their own community, culture and beliefs.

Recipient of the 2014 Allina Health Commitment to Excellence Award.
