The Emma Goldman Clinic is pleased to announce that we have added an additional part time nurse practitioner to our office.

Please welcome Larry Newman, DNP, BSN, ARNP, AGPCNP-BC.

Larry attended the University of Iowa College of Nursing in Iowa City where he recently received his Doctor of Nursing Practice (DNP) degree. He is a board certified adult-gerontology primary care nurse practitioner. His areas of interest include women's health, LGBTQ health with a special interest in transgender hormone therapy. Prior to becoming a nurse practitioner, Larry worked as an RN on the burn unit at the University of Iowa Hospitals and Clinics.

"I am so excited to be working at the Emma Goldman Clinic. I am a feminist and I'm inspired by the strong, confident women, men and trans* clients who come to Emma's for health care. While in school I was privileged to work with some of the best physicians and nurses in the state when it comes to LGBTQ health" said Larry.

"I also have learned so much from members of the local transgender community and hope to partner with them in growing a practice of quality healthcare that is inclusive of everyone. I'm so happy to be able to continue working in this area as a nurse practitioner at the Emma Goldman Clinic."

Larry and his husband live in Iowa City and have been married since May of 2009 when same-sex marriage first became legal in Iowa. They have a young son who keeps them both very busy. Larry will be working every other Saturday providing services to Emma Goldman clients which include men and women's health care, contraception, STI screening and transgender hormone therapy.

We are excited to have Larry joining EGC. The additional Saturday appointments will allow us to expand and reach clients that have varied schedules and offer them the high quality health care that the Emma Goldman Clinic is known for.
