12. **POSTGRADUATE TRAINING (DO NOT ATTACH RESUME OR CURRICULUM VITAE.)** List in chronological order ALL postgraduate training undertaken in the United States, its territories or possessions, Puerto Rico, or Canada regardless of whether you did or did not complete the program, and regardless of whether you were or were not compensated. (Copies of training certificates are helpful, but not required.)

**NOTE:** On a case by case basis, the Board may consider full time teaching in an LCME accredited medical school in the United States as an alternative to the accredited postgraduate clinical medical education required in the Code of Maryland Regulations 10.32.01.03D. Applicants who intend to request consideration of teaching experience as an alternative to accredited postgraduate clinical medical education should contact the Board's licensure division for further information.

Effective October 1, 2000, graduates of all medical schools NOT in the U.S., its territories or possessions, Puerto Rico, or Canada are required to submit evidence acceptable to the Board of successful completion of 2 years of training in a postgraduate clinical medical education program accredited by an accrediting organization recognized by the Board (ACGME, AOA, or equivalent). All of the additional year must have begun after the date of the last fail. Teaching will not be accepted as an alternative to a year required following three or more fails. If you have not met this requirement, DO NOT submit this application. Formal Action Information
No formal action exists.

The above is an accurate representation of information currently maintained by the State Medical Board of Ohio as of 9/3/2015. The JCAHO and the NCQA have informed the Board that they consider this on-line license status information as fulfilling the primary source requirement for verification of licensure in compliance with their respective credentialing standards. This information is otherwise provided as a public service and no user may claim detrimental reliance thereon.

The State Medical Board utilizes the Federation Credentials Verification Service (FCVS) as an agent and partner in licensing physicians in Ohio. Physicians initially licensed in Ohio after February 1st, 1997 have had their medical education, post-graduate training and examination history primary source verified by FCVS. Therefore, the use of this website for documentation of primary source verification (PSV) of education and training meets current NCQA guidelines for those licensed after February 1, 1997. This statement, affirming that primary source verification of medical education and post-graduate training has been performed as part of the licensure process, should be printed out and retained in your files. Prior to February 1, 1997, the State Medical Board prime source verified the post-graduate training and examination history.
