CESARE SANTANGELO, M.D. – Ob/Gyn

Issue at Hand:

The Board considered the peer review report, submitted by Dr. Colden. The review panel found no violations and recommended closure on 11/14/13, but the final report was not yet submitted.

Background:

The Board originally reviewed the complaint by _____ of GWU/MFA on 7/11/13, which raised concerns regarding Dr. Santangelo's bad outcomes related to abortions. The Board subsequently requested peer review. At the 11/14/13 meeting, Dr. Colden reported the peer review group's findings, and recommended that the complaint be closed.

Licensure Status:

Dr. Santangelo has an active DC license, issued in 1987, and currently practices on F Street NW in the District.

The review panel found no violations, and were satisfied that his complication rate is lower than the standard. He is the 'go to' referral for these kind of high risk cases. The panel recommended he revise his consent form and perform his terminations under ultrasound. They also recommended he be included in routine peer reviews with GWUH.

Motion: Close. The Chair will write the closure letter to Dr.

Also share the panel's report with his attorney, Mr.

Belcuore.

Seconded

Passed Unanimously

Government of the District of Columbia
Department of Health
Board of Medicine

Additional Items Discussed:

Cesare Santangelo, M.D. – Obstetrics & Gynecology

After encountering three patients experiencing complications following abortions performed by Dr. Santangelo, a complaint was filed by George Washington University Hospital's Chair of _____ . Dr. Colden provided an informal update on the results of the peer review panel charged with reviewing the complaint against Dr. Santangelo. Dr. Colden stated that she met with OB/GYN chairs at Medstar Washington Hospital Center, Howard University Hospital, and Providence Hospital to review the case.

The panel recommended closing the case, because there was no breach in standard of care and any complications were handled in a timely fashion. The panel did, however, make a few recommendations that Dr. Santangelo should consider adopting in his practice:

1. Consider conducting terminations with ultrasound guidance to reduce risk of uterine perforation;
2. Improve provider-referring hospital communication; and
3. Ensure that pre-consent and consent-to-surgery forms are uniform and do not have any differences, thereby preventing miscommunication.

The members of the peer review panel will draft a letter discussing its investigation and findings. This letter will be considered by the full Board at the next meeting for a formal vote.

Government of the District of Columbia

Department of Health

ADDITIONAL DISCUSSION:

CESARE SANTANGELO, MD – OB/GYN

The ED reported on a complaint that was received regarding Dr. Santangelo. She mentioned that (the complainant) indicated that Dr. Santangelo has had poor outcome on his abortions, while at GWU.

The Board Attorney determined that the complaint was legally sufficient and found that an investigation was warranted. The Board Chair has requested that the Board look at the complaint first, before moving to an investigation and obtaining records.

[Simultaneously, the Department of Health received a letter from the US Congress requesting information on abortion sites from 2008-2013].

CESARE F. SANTANGELO, M.D. – B/C in Ob/Gyn

Category IV
LR

Issue at Hand:

The Board considered the complaint of _____ M.D., which raises concern over multiple bad outcomes related to Dr. Santangelo's abortions. Dr. Santangelo has provided a reply for the Board's review, and a full investigation has been requested. The case has also been forwarded to the HCFD (S. Lewis).

Licensure Status:

Dr. Santangelo has an active DC license, issued in 1987, and currently practices on F Street NW in the District.

The Board felt the OTA response was very informative and clearly spoke to each patient that had complications. The Board's OB (KC) stated these complications are fairly common with these procedures. The Board wants to be sure the OB community concurs.

Motion: Comprise an expert peer review panel from HUH, Providence, and WHC, including Dr. Colden. Return findings to Board.

Seconded

Passed unanimously

CESARE SANTANGELO, M.D. – B/C in Ob/Gyn

The Board considered the complaint of _____ RN of Spottsylvania Hospital regarding Dr. Santangelo; and (b) Dr. Santangelo's reply. This was referred by the HRLA Health Care Facilities Division, stemming from one of their investigations, regarding his handling of a later term abortion. Their investigation is still ongoing and no report is available yet.

Motion: 1) Tier 1 investigation; 2) obtain final report from the HRLA facilities division.

Seconded

Ms. Markowitz recused herself.

Passed unanimously by all others.
