Ohio eLicense Search Instructions for the Pharmacy Board:

Type of License box: leave as Display All to search across all Pharmacy Board license types. To narrow the search, select one of the following:

Pharmacist - to specifically lookup pharmacists licensed by the board.

Intern - to specifically lookup pharmacy interns licensed by the board.

Terminal Distributor - to specifically lookup terminal distributors licensed by the board. This selection includes pharmacies, hospitals, clinics, emergency medical services, home health care agencies, etc. Any business licensed by the board that is not a wholesale distributor would be included in this type of license.

Wholesale Distributor - to specifically lookup wholesale distributors licensed by the board.

Business Name/DBA box: enter the name of the business. The lookup will provide better results when the first few letters of a Business name is entered. If too many records are returned in the search, then narrow the search by entering more letters of the name or by entering a city, or a county, etc.

License Number box: enter the license number without hyphens. This search works best when done without entering data in the other search fields.

The Status box can be used to narrow a search. It is recommended that a specific Status not be selected (leave as "Display All").

If the message "More Results Exist. Output truncated at 100 lines. You may wish to add additional search requirements and try again." appears, narrow the search by entering data in more search boxes, e.g. enter a City as well as the Business Name.
