### Reproductive Bridges Coalition

(<https://reproductivebridgescoalition.com/>)

Created in late 2016, the Reproductive Bridges Coalition aims to ensure access to comprehensive reproductive health care for all women in Western Pennsylvania. The coalition comprises women's health champions across the region who are committed to advancing women's reproductive health through the conduct of rigorous research to inform policy, educational forums for policymakers and other key stakeholders, and supporting clinical efforts to optimize access to the full range of contraceptive methods. In addition, we will work closely with community organizations to ensure that we uphold a justice-informed agenda as we strive to serve the reproductive health needs of the diverse individuals and communities that we hope to serve.
