Gentlemen:

This is to inform you that the sprinkler system for the above referenced project is in full operation. The system itself has been installed according to plans submitted to you, applicable NFPA codes, and Massachusetts State Building Code, 7th Edition. The sprinkler system has also been pre-tested with flow and tamper switches operating properly and signaling the appropriate fire alarm panel(s).

As of this date, all valves are presently in the open position and the system in its entirety is in complete working order.

A copy of the Contractors Material and Test Certificate is attached for your records.

Very truly yours,

Cogswell Sprinkler Co Inc.
