The licensee may have completed additional education or training programs. Only those that have been verified with the primary source are shown.

Board Orders

Please note that Corrective Action Orders, Corrective Action Agreements, and Consent Agreements are public records, however they are not disciplinary and are removed from this website upon completion. Copies of any public Orders or Agreements are available through a [license verification request](#).

There are no current or prior Board orders or agreements on file for this licensee.

Malpractice

Malpractice claim information is compiled by the Oregon Medical Board from claim reports it receives from primary insurers; public bodies required to defend, save harmless and indemnify an officer, employee or agent of the public; a self-insured entity; or a health maintenance organization. Claim reporting and disclosure requirements are governed by ORS 742.400.

The settlement of a medical malpractice claim may occur for a variety of reasons that do not necessarily reflect negatively on the professional competence or conduct of the provider. Therefore, there may be no disciplinary action appearing for a licensee, even though there is a closed malpractice claim on file. A

payment in the settlement of a medical malpractice action does not create a presumption that medical malpractice occurred. This database represents information from reporters to date. Please note: Not all reporters may have submitted claim information to the Board.

[Why are there not written summaries for every Order listed?](#)

WHAT ARE BOARD ORDERS?

COMPLAINT & NOTICE :This document formally notifies a Licensee that the Board has found evidence to support a violation of the Medical Practice Act and proposes to take disciplinary action. This is preliminary action by the Board and is not a disciplinary action.

CONSENT AGREEMENT :The Consent Agreement is a non-disciplinary, public agreement between the Board and the licensee to resolve an issue or address deficiencies identified by the Board. A Consent Agreement is often used to formalize a re-entry plan for a licensee who proposes to return to clinical practice after ceasing practice for a significant period of time.

CORRECTIVE ACTION AGREEMENT :The Corrective Action Agreement is a public, non-disciplinary order designed to modify, monitor or otherwise correct an identified problem. The terms are agreed upon by the licensee and the Board. There are no findings of serious wrong doing, and identified problems can be addressed through remediation.

CORRECTIVE ACTION ORDER :The Board and the Licensee have entered into a formal, non-disciplinary order designed to modify, monitor and/or otherwise correct an identified problem. In this order, the Licensee usually does not admit or deny a violation of the Medical Practice Act.

FINAL ORDER : An order imposed by the Board after a Contested Case Hearing has been held. These orders conclude a Board disciplinary action and typically contain a legal finding of fact, an analysis of the applicable law and an order of action. Final Orders are usually disciplinary actions.

INTERIM STIPULATED ORDER: This Order puts interim or temporary conditions on a license until the Board is able to conclude its investigation.

ORDER MODIFYING BOARD ORDER: This Order modifies a previously issued Board Order.

ORDER MODIFYING CORRECTIVE ACTION ORDER: This Order modifies a previously issued Corrective Action Order.

ORDER OF EMERGENCY SUSPENSION: This Order immediately suspends a license to practice based on immediate concerns regarding the Licensee's ability to safely practice.

ORDER TERMINATING BOARD ORDER: This Order terminates a previously issued Board Order.

ORDER TERMINATING CORRECTIVE ACTION ORDER: *No longer appears on this website. This information is available in paper format. To request a Board Order please use the [Licensee Information Request](#).*

OTHER ORDER :This category refers to miscellaneous Board Orders. These types of Orders are usually not disciplinary actions.

STIPULATED ORDER : The Board and the Licensee have entered into an agreement where the Licensee usually admits to a violation of the Medical Practice Act and has agreed to specific terms or conditions in the Order. Stipulated Orders are disciplinary actions.

VOLUNTARY LIMITATION: Licensee has agreed to sign an agreement with the Board that restricts some area of his/her practice. This type of Order is not a disciplinary action.

WHY CAN'T I VIEW ELECTRONIC COPIES OF ALL BOARD ORDERS LISTED?

Most Board Orders issued from **January 1, 1998** until the present are available to view on the Board's website. Orders prior to that date are available from the Board in paper format only via US mail or fax. Electronic copies of Corrective Action Orders, and orders that modify or terminate them, are not posted because they are not disciplinary actions. Complaint and Notices of Proposed Disciplinary Action are also not posted because they are not final actions by the Board. Both Orders, however, are public and are available upon request, as described below.

HOW CAN I GET COPIES OF THE ORDERS LISTED?

Printed copies of all Board Orders are available to the public. This report is called a Disciplinary Report. This report contains copies of ALL public orders on file for that Licensee. To obtain a Disciplinary Report for a particular Licensee, please complete a [Licensee Information Request](#) on the Board's website, submit it with the \$10.00 fee per licensee and mail to:

Oregon Medical Board
1500 SW 1st Ave, Ste 620
Portland , OR 97201

If you pay with a credit card, you may also fax this request to (971) 673-2669.

WHY ARE THERE NOT WRITTEN SUMMARIES FOR EVERY ORDER LISTED?

A brief, written description of all Board Orders is available for all orders issued after January 1, 2003. Prior to that date, written summaries of orders are not available.

Specialty

Specialty is self-reported by the licensee. It does not necessarily indicate specialty board certification. Check directly with the licensee's office or the appropriate specialty member board below for the licensee's current certification status.

[American Board of Medical Specialties \(ABMS\)](#)

the parent board for many physician specialty boards

[American Osteopathic Association's Bureau of Osteopathic Specialists \(AOA-BOS\)](#)

the parent board for many physician specialty boards

[The American Board of Podiatric Medicine \(ABPM\)](#)

for podiatric physicians board certified in podiatric medicine

[American Board of Foot and Ankle Surgery \(ABFAS\)](#)

for podiatric physicians board certified in foot and ankle surgery

[National Commission on Certification of Physician Assistants \(NCCPA\)](#)

the certifying board for physician assistants

[Certification Commission for Acupuncture and Oriental Medicine \(NCCAOM\)](#)

the certifying boards for acupuncturists

Supervising Physician Status

The Board began requiring approval as a supervising physician of physician assistants on January 1, 2012.

Physicians not approved since then may be supervising a physician assistant with whom they entered a working relationship under a practice description prior to this date if there have been no changes to the working relationship.

Physicians not approved as a supervising physician since January 1, 2012 may also be supervising a physician assistant as part of a Supervising Physician Organization (SPO) if supervision as part of the SPO began prior to September, 2016.

Future Status

The information displayed under Future Status denotes the licensee's renewal request has been approved for the forthcoming licensure period.
