

The abortion industry stays in business due to the complicity of other neighborhood businesses. Plumbers, electricians, roofers, cleaners, etc. keep the baby killing centers operational. Please consider contacting Advanta Clean by mail, phone or e-mail. On Thursday morning (May 24, 2018) one of their trucks and two workers were at the Richmond Planned Parenthood to ensure that the business continues to operate smoothly.

Ask Advanta Clean to stop serving this baby killing business.

"And have no fellowship with the unfruitful works of darkness, but rather reprove them."

Ephesians 5:11
