Patient Satisfaction Ratings

Patient Rating Breakdown

The Patient Satisfaction Rating is an average of all responses to the care provider related questions shown below from our nationally-recognized [Press Ganey Patient Satisfaction Survey](#). Patients that are treated in outpatient or hospital environments may receive different surveys, and the volume of responses will vary by question.

Responses are measured on a scale of 1 to 5 with 5 being the best score.

The comments are submitted by patients and reflect their views and opinions. The comments are not endorsed by and do not necessarily reflect the views of Penn Medicine.

Apr 3, 2018 My doctor was just amazing. She made the overall experience a lot more bearable

Mar 6, 2018 Very respectful and truly took time to know/understand why I was there.

Feb 6, 2018 Providers met w/me one-on-one to discuss well being/issues prior to dis-robng/exam - So wonderful!

Jan 16, 2018 A good experience.

This was a difficult situation for me and Dr. Schreiber was exactly the kind of person I needed. She was compassionate and empathetic and took the time to answer questions and make sure that I was comfortable with everything that was happening. Whenever there was an unexpected wait for me she made sure to apologize and ask how I was holding up, which I have never had a doctor do before. To me that demonstrates a high level of respect and genuine concern for her patients. If she had a private practice closer to where I live, I would definitely switch to having her as my regular obgyn.

The care I was provided was absolutely some of the best I have ever had! I was pleasantly surprised with how quick and comfortable the whole visit was. Thank you!!!
