What our current and past residents are saying

The learning curve is incredibly steep in residency and I feel pushed and challenged as well as supported by faculty and my fellow residents. It is a family environment.

- PGY2

The program leadership is very responsive to our suggestions, ideas and concerns. We have strong resident leadership that is supported and encouraged. Plus my fellow residents are life-long friends!

- PGY3

We have incredible surgical and obstetrical training plus we are challenged academically to practice evidence-based medicine and think through clinical decisions. This program has been the perfect balance for me.

- PGY4

It amazes me how many of my colleagues here are uncomfortable with laparoscopic surgery and if it was not for my training at Kaiser Oakland I would be not as confident as I am. I am thankful for the amazing laparoscopic teaching I received.

- Recent Graduate

I always appreciated the training and the supportive environment when I was a resident but now that I am a fellow I am thankful on a much deeper level. I was a bit nervous coming from "a Kaiser program" and starting fellowship but I quickly learned how excellent our training is and how well prepared I was. You can truly pursue any avenue you desire.

- Recent Graduate

Where our graduates have gone

Fellowships

Isabel Lazo: Palliative Care UC Davis 2016; Gynecology/oncology 2017
