EDUCATION AND TRAINING

The Obstetrics and Gynecology Department offers clerkship, fellowship and residency programs for medical students and recent graduates interested in specializing in obstetrics and gynecology. Because Boston Medical Center is New England's largest safety-net hospital serving a diverse patient population, medical educational opportunities here are especially rewarding and challenging.

The Obstetrics and Gynecology Department at Boston Medical Center is affiliated with the Boston University School of Medicine (BUSM). Learn more about our programs here:

- **Obstetrics and Gynecology clerkship program** (Medical Student Education)
- **Family Planning Fellowship**
- **Residency Program**

Boston Medical Center (BMC) is a 567-bed academic medical center located in Boston's historic South End, providing medical care for infants, children, teens and adults.
