This place should be closed and banned from operation! I had the most terrifying experience when the main nurse practitioner MID PROCEDURE ANSWERED HER CELL PHONE...and to make matters worse it was her sister calling regarding a bra sale that was going on! I was terrified, and honestly over and over kept asking myself if this was real life. How did I get myself into such a disgusting situation! The other nurse that walked into my room prior to the procedure outloud said, "I hate this place!" And they all proceeded to carry on a conversation regarding the practice and some upcoming conference with the owners that apparently was taking place for the practice. Just so disgusting!

In the waiting room there was a lady who ran out in tears

afterwards with her spouse cussing and crying saying they didn't listen to her or answer her questions, and that this place was a shithole...only for me to understand her EXACT sentiments minutes later!

You cannot continue business like this. You are ruining the lives of your patients as opposed to helping them. This place has to be shut down or drastic measures need to be taken to improve- the customer service, sanitation, and PROFESSIONALISM- i cant tell you how many times i heard- "i hate working here" "or this place is terrible" "or I don't even care" that is simply unacceptable as you have the option to work some place else as opposed to assisting and caring for women truly in need at a very sensitive point of their lives!!! Women cannot have these types experiences...PERIOD! You should all take a close hard look at yourselves as business women and "medical specialists- used lightly" because maybe this isn't for you!

-Very traumatized patient!

Praying for any other women who are scheduled to come into this practice under the impression that they are entering a place of safety, and assurance because THIS IS NOT IT.

This place is horrific. DO NOT GO HERE. I had a truly awful experience. I don't understand how they can run such a terrible place. Crowded, dirty, no windows, no water. They somehow made be believe that getting a medical abortion was a good idea. I later came to find out that they use a super outdated protocol which caused me to have an incomplete miscarriage...suffice it to say it was a FUCKING NIGHTMARE. This place should be shut down.

This place should be closed. Filthy, unprofessional, unorganized, overcrowded. When I say filthy I mean the trashes were overfilled with waste materials in the operating rooms. Medical facilities should be spotless and sterile. This place was just disgusting. The staff has to be the worst staff in America. The doctor and owner should be ashamed of himself and should be stripped of his medical license and disbarred. He was creepy as hell. The nurses were eating chicken near the medical equipment and literally complaint the whole time. "2 more and we can get the hell home". No empathy for the terrified women in the room. 8 hour wait times despite scheduled appointments.

Please run and don't come here!!!!!!

From the business

Specialties

Capital Women's Services is a reproductive healthcare provider dedicated to serving women in a kind, caring, and compassionate manner. We provide high-quality care and have experienced doctors and staff to make you as comfortable as possible at your visit. We specialize in reproductive health services including contraception, gynecological exams, abortion services, pregnancy testing, and ultrasounds. Our abortion services include both the surgical abortion and the medication abortion.

History

Established in 2017.

Capital Women's Services is a new company which opened in May 2017. We are eager to begin a long journey of helping women access the important reproductive care they need and deserve. Committed to our mission of helping women through quality care, we are a strongly pro-woman organization.

Although we are recently established, we are not new to the industry. Our Medical Director, Dr. M. Rose, is a Board-Certified Obstetrician and Gynecologist who is a former Associate Professor of Clinical Obstetrics and Gynecology at George Washington University. Dr. Rose has been performing abortion procedures since 1970 and was a founding member of the National Abortion Federation (NAF). Dr. Rose is deeply committed to making safe, professional, compassionate, non-judgmental, reproductive healthcare a reality for all women.
