We're beaming: our Fellow Dr. Meera Shah was honored last night in Albany as a "Woman of Distinction" by New York State Senator @bradhoylman as a family medicine doctor and abortion provider who is the "personification of courage."

Replying to @prhdocs @LPdocnyc @bradhoylman

In my 40-years as a RN, many women & men ended up regretting abortions. How many had Adverse Childhood Experiences? God cares 4 all souls. It is sad 2 see abortion & sad to see messed up children that grew up to be messed up adults. Do you know what WOMAN4(W)EALTH stands for?
