## Specialties

Dr. Laura J Berghahn has the following 1 specialty

### OBSTETRICS AND GYNECOLOGY

An obstetrician & gynecologist, or OB/GYN, is a physician who cares for women throughout their pregnancies, straight through to the delivery of their baby (obstetrician). They also specialize in annual care, as well as the diagnosis and treatment of disorders of the female reproductive system (gynecologist). Many physicians specialize in both of these fields in order to provide complete overall health services to women at every stage of life.

## More about Dr. Laura J Berghahn

Devoted to Women’s Health Dr. Berghahn is a specialist in Obstetrics and Gynecology who loves delivering babies, developing relationships with patients over time, and helping women make decisions to support their best health. “One of the best sounds in world to me is a fetal heartbeat,” she says, with a smile. “It’s rewarding to deliver a patient I’ve known for a long time or who has gone through a period of infertility. If I were to ever lose that feeling of ‘this is a miracle,’ I’d need to retire on the spot.” Dr. Berghahn and her husband have two children, both of whom were delivered by her colleague Dr. Jenny Hackforth-Jones. Dr. Berghahn serves on the board of the Madison Opera and enjoys yoga, running, and family vacations on Lake Superior. Comprehensive Health Care Dr. Berghahn graduated Salutatorian from the University of Wisconsin School of Medicine and Public Health, where she also completed her residency in obstetrics and gynecology and served as chief resident. She previously practiced on Madison’s East Side and held an appointment as a clinical associate professor at the medical school for eight years. She joined Associated Physicians in 2010. Dr. Berghahn is board certified in obstetrics and gynecology. She is both a Diplomate of the American Board of Obstetrics and Gynecology and a Fellow of the American College of Obstetricians and Gynecologists. In addition, she is a member of the American Association of Gynecologic Laparoscopists and the National Vulvodynia Association. Her professional interests include all aspects of obstetrics, polycystic ovarian syndrome, vulvodynia, surgical and nonsurgical alternatives to hysterectomy, and hysteroscopic sterilization. Personalized Health Services At Associated Physicians, Dr. Berghahn provides comprehensive obstetrics and gynecological health care services for women of all ages. She performs checkups and gynecological exams, advises patients on birth control and family planning, provides prenatal care, performs deliveries and surgeries, and diagnoses and treats conditions ranging from mild infections to chronic and serious health problems. “Associated Physicians is just the right size for the doctors and our patients, and our nurses are also devoted to the personalized care we provide,” she

says. "You will meet all the doctors in our department, so you'll never be delivered by a stranger. That's as important to me as I know it is to my patients. And the comprehensive services we provide under one roof make us a great fit not only for our patients, but also for their families."
