I came to FPA after having weeks of problems with IUD insertion and insurance coverage from my private gynecologist. It was the best decision I ever made. I got an appointment on the same day that I called, with devices on site and very little wait. When I got to the clinic, I had a thoughtful intake process and spoke with Dr. Barcellos extensively about my fears concerning the IUD insertion pain (I'd just had an extremely traumatic surgery for a broken leg and was extremely concerned about pain).

Dr. Barcellos was without peer. She talked me through the insertion process and her own experience with an IUD. When my cervix was overly sensitive, she acknowledged my trauma and pain and helped me breathe through it. Rather than rush through the IUD insertion, she suggested an alternative - Nexplanon- which was also safe for women with blood clots (which I had recently been diagnosed with).

Despite fully prepping me for the IUD, she didn't bat an eye when we decided to abandon ship on Mirena (IUD) and go with Nexplanon (arm implant). She was amazing. The procedure was virtually painless.

I went into FPA worried that I would feel rushed because I know how busy feminist health clinics are. I could not have been more wrong. I received the most compassionate care I have experienced in my adult life. Dr. Barcellos told me about her extremely impressive, specialized training in women's contraceptive care and abortion services. She exuded calm and confidence, which helped me enormously.

FPA was a true blessing in my life and I am so glad I received my contraceptive care from them. They have earned a forever ally and advocate in me. I give them my highest recommendation.

So first day I came here they did an ultra sound and the machine stopped working so she had to keep taking it in and out of me and that felt very uncomfortable  
My second appointment I was scheduled today ! 12/21/18 at 8am!! I Don't know why they even scheduled me at that time if the lady for the ultra sound is not even here ! It's already 11am and I have work at 12pm I'm sooooo upset this is so unprofessional and a waste of my time !! I also had to keep asking what's going on because I seen two patients come in after me and left before me they didn't even let me know she was running late until I had to ask why was it taking so long ! This is such a bad place

I was a little nervous about coming here due to some not so great Google reviews, but I'm glad I kept my appointment regardless. Did I have to wait? Yes...but I was prepared to. It didn't take longer than many other doctors I've been to, especially as a new patient. Everyone at the office was really nice and personable. I had a lot of anxiety about getting my IUD removed and another one inserted because of past incidents. The PA was so fast and gentle it was over before I knew it. Plus I got a TON of condoms which saves so much money. I'll definitely keep going to them for my health needs.

Twice now my appointment has been canceled the day before due to the doctor having an "emergency". This not only screwed with my work schedule twice now but has added to my anxiety for two months not knowing where my health stands. I will be finding another doctors office that cares about women's health today as I know if I reschedule again with this office they will only cancel the day before.  
Horribly disorganized, I'm really disappointed and I'm surprised blue shield would guide me here.

Horrible experience and to top it off the receptionist with her nasty attitude. Careful if you challenge her and ask to talk to a supervisor she will tell you with a smirk on her face "I'm the manager!" Just because you're the manager don't mean the chasing of cam and ends there. No respect, no customer srvice, specially when families are going through hard times.

★ ★ ★ ★ ★ 8/24/2018 · Updated review

Update: This clinic actually did reach out to me to follow up with my care and apologize so I am changing my review. I do appreciate their level of customer service following an incident. I will still continue to go to this clinic.

I have been to this clinic in the past without any problems for other things. However, on Monday the 13th I went in for an appointment and I knew I was experiencing painful UTI symptoms.

The doctor brushed me off about my symptoms and also said my urine sample wasn't quite showing for sure I had a UTI but had white blood cells showing infection, which she blamed on BV.

Later that night I was I so much pain I had to go to the emergency room. My doctor said my UTI was pretty much as bad as a UTI could get and they were worried about my kidneys.

I had to get a painful antibiotic shot right there because they wanted to make sure my kidneys would be okay. I also have 10 days of antibiotics to follow.

The doctor at FPA put me in danger. I told the doctor at the ER about this and he was confused that they would tell me it wasn't positive I had a UTI with giving them a urine sample. He said as far as a UTI goes I was at like 99% bad.

Again, this was quite dangerous and I don't understand how the doctor at FPA didn't see this. I described the pain to her. They took a urine sample. And yet, I felt left i satisfied and with bullshit answers.

Wonderful place! I came here to have the nexplanon implanted into my arm. It's very clean and all of the women who work here are helpful and very friendly. There's parking right behind the building. They offer so many services to everyone birth control, weight loss program, Pap smears, and much more! I highly recommend this location to any woman. I did run into a person outside trying to hand me a brochure about god. I told him this clinic is not only for abortions women come here for many things all of which are none of his business and walked right in lol

Yes, the wait is long. But considering everything, I think it's worth it. I am beyond happy places like this exist for women. If you go in prepared and knowing you will wait, it's really not that bad.

My appointment for an annual exam was at 2:15 and I was on my way by 4. This included all intake paperwork, setting me up with insurance help, the full exam plus, questions. Everyone I interacted with was nice and caring, and not once did I ever feel rushed. All of my questions were answered and everything explained well.

This is not just a great place for low income/uninsured/underinsured, it's flat out a great place. No, there won't be cucumber water and the latest Us Weekly magazines, but there will be competent and thorough care. And to me, that's all that really matters at the end of the day. Just bring a book to read and you'll be okay!

Patient and attentive staff. Yes, there is a long wait but hey, it's free service! And it's a necessary community service for women. It should be expected that they have a high volume of consumers. They were able to answer all my questions, treated me with respect and got my procedures done, an iud insert. Good job!

I had a procedure form perform there and put under in 2004 or 2005.  
In the process of being put under anesthesia the person that was performing my procedure sexually assaulted me

be careful with procedures that you have done at this facility and being put under anesthesia. Your health is not in everyone's best interest

Very Professional clinic, had me booked the same exact morning i called in for an emergency. Went in, sat down, pretty empty waiting lounge. In about 20 minutes called me in, and they began my care. Quick care, and all the nurses were very nice except first one, tall and thick profile nurse didnt really make me feel welcome. But everyone else was a pleasure. I was in and out and to be honest was shocked thank god i didnt go to planned parenthood. This was much easier.

ABSOLUTELY THE WORST DOCTORS' OFFICE.  
Appt was 8am, and there were already 3 ppl.  
I did expect to wait at least an hour but PLEASE.  
IT's 11am and IM STILL WAITING.  
Doctor must be seeing patients in the order that they came.  
Since my friend and I came fourth, it only tells me that this doctor is incapable of seeing his first 4 patients in 3 hours.

★★★☆☆ 3/23/2019

My experience with this specific location was not as good as my experience at the LB one. Today i went in for their services. Staff was nice & ALL but once i was going to go through the process. The anesthesiologist was really fucking mean/rude. To begin with She was upset because she couldn't find my vein because of my LONG NAILS according to her. She stuck me 2 times before she even told me to ball a fist. & had the nerve to say "I HAVE SPIDER VESSELS THAT I SHOULD LIFT MORE WEIGHTS AND DRINK MORE WATER". Like ummm excuse me i couldn't drink ANYTHING since 12am. She was really bothered with my nails and the fact that i said i just finished school for MA she was telling me best TIP is if your looking for a job i shouldn't wear long nails. Like damnnn. Tell me something i don't know!!! Rude ass lady.! Will NEVER go here again. Fell asleep with her on my mind and woke up with her on my mind. Talking shit.! Excuse my french but you need her OUT of there with her negativity!!!

Time and time again FPA has been so amazing to me. I can't thank enough the organization and the staff for all they have and continue to do. My "patient advocate" (forgot her name... darnit!!) was so kind and made me feel very comfortable. Getting blood drawn is never fun but I survived that too.. and my nurse Joette was also excellent. Thank you FPA for always being there for me. :)
