## Our Family Planning Services

We offer a full range of family planning options for heterosexual and same-sex couples and individuals. These options include education and counseling services, and screening and treatment for sexually transmitted infections.

For all family planning services, we accept most insurance plans and offer cash payment options.

- Reproductive life planning
- Birth control options
- Pregnancy loss care
- Embryo, sperm and egg freezing
- Pregnancy planning

## Our Approach to Family Planning

When making important, potentially life-changing decisions, it's reassuring to have an experienced team you can trust. Highlights of our program include:

- **Expert doctors:** Our gynecologists partner with oncologists, doctors who diagnose and treat cancer, to offer oncofertility services through our [Fertility and Reproductive Medicine Center](#).
- **Leading treatments:** We perform the latest techniques using the most advanced technology to preserve and enhance your fertility, terminate a pregnancy and manage pregnancy loss. We use minimally invasive surgery whenever we can for less pain and

- **Maternal-fetal medicine specialists:** These doctors take care of women who are experiencing a high-risk, or complicated, pregnancy.
- **Reproductive medicine and fertility specialists:** These doctors help individuals and couples to manage a condition affecting their ability to get pregnant or have a child.
- **Genetic counselors:** These healthcare professionals evaluate individuals and couples to help them understand their family history and how it affects their child's chance of developing a health condition during pregnancy or after birth.
- **Complete care:** We offer access to education, counseling and all methods of contraception for women and men, including those with complex medical situations.

- **Special attention to comfort and confidentiality:** We deliver care in a supportive environment in accordance with patient privacy laws. We rarely share information and only do so with your written consent.

## Family Planning Clinical Trials

As you plan your reproductive future, rest assured that our specialists are working to deliver tomorrow's family planning options today.
