★★★★★ 6/15/2019

I brought a female family member here who needed an escort to drive her home in order to receive anesthesia for a D&C due to a miscarriage which did not pass. She does not have insurance so we called around to several places (trying to avoid a large hospital bill if we went to the ER) and this gyn clinic had the best prices and really good reviews.

I was concerned about the wait based on some of the reviews, but she was seen quickly (15 minutes before her scheduled time). It was a Wednesday late afternoon appointment, so maybe those appointments are less popular than other time slots.

We were there a little under 3 hours total which included a consultation with the gynecologist, an ultrasound, blood work and the procedure with with complete anesthesia. She was a bit groggy when we left but when we got home an hour later she appeared fully recovered and was able to manage the discomfort with Advil.

She had some bleeding the next day and when we called, we were able to get the gynecologist on the phone who reassured us everything was OK. It has not been 2 weeks and she just had her follow-up which was normal and they recommended she have a pap smear which they did as well at a very reasonable price.

It is really difficult to find good medical care at a reasonable price when you do not have insurance. We are in that difficult position of making too much to qualify for Medicaid but not able to find private insurance at a reasonable price. I really appreciate the quality of care and empathy here towards patients and the lack of unexpected upcharges from what was quoted in the phone which is refreshing compared to other medical clinics I have been to for my own care.

I was there on Saturday the april 13 , 2019 . My appointment was at 10 and they saw me at 12 pm smh . Not going to lie though the doctor was very nice with me regarding my problem . What i'm pissed off is that today it's the 19 and still have NOT GOTTEN MY RESULTS AND THE MEDS . I called the office yesterday and some lady told me that my results were back but the have not scan it to my file and that the doctor is barely there . So irresponsible this clinic is . It DOES NOT TAKE THAT LONG FOR RESULTS IN OTHER CLINICS !!!

I have been to a few different gyn's in Jersey and Manhattan, and I have to say that this was by far my best experience. The staff was so warm and welcoming from the minute I stepped in. I needed to get my annual Pap, which always makes me nervous due to my past experiences elsewhere. The staff put me in an exam room right away, and the doctor saw me shortly after. She made me feel very comfortable and explained every step that she was doing. She took her time listening to me and really seemed like she cared. Now I finally feel like I have a GYN that I feel comfortable coming to, and will definitely be back!

First time coming to this place! I was a bit anxious as it was my first time seeing a gynecologist, but I was so relieved that the staff was so friendly. They were so helpful and sweet. I was also pleasantly surprised that the wait time was not long at all! They gave me great information on birth control, as well as their recommendations on which one I should take. Definitely happy with my choice :) I recommend!!

I would give zero stars but unfortunately it is not an option. Beware coming to this place. Even though I paid in full on the date of my procedure they asked for a Copy if my insurance card and said they needed it in case of an emergency. I was assured since I paid full amount they would not be charging anything to my insurance company. I have an extremely high deductible so there was no point going through my insurance. I received a statement from my insurance company showing they billed my insurance for the full amount of the procedure and then some. I contacted them several times before finally being able to speak with anyone that said they were able to speak about billing. We were assured the situation was resolved. I got a call a few weeks ago from Gardenstate gynecology stating that my insurance company would be sending me a check and I needed to sign it and send it to them for reimbursement. Since this issue was already resolved and they were not suppose to bill my insurance company after I paid in full I disregarded the call since they knew I paid in full, and so did my insurance company which is why I never received any check from my insurance. I now received a letter stating they have sent me to collections. Now I have to go through the hassle of reporting them for insurance fraud. thank goodness I paid in full on my credit card and also saved my receipt,none the less this is still an inconvenience. Do not give this place your insurance information if you pay in full. They will attempt to get double compensated. They even charged my insurance company way more than the procedure was. I am sending all receipts and credit card statements into my insurance company and they are going to investigate this fraud. My lawyer said they will send the collectors all documents I have to invalidate their claims. Beware. You will wait for for hours to be see and then charged more than once.

Extremely clean, friendly, and down to earth facility. The staff here is amazing, from front desk to doctor. I really appreciated the warm ultrasound fluid! Jasmine , the ultrasound technician made me feel very comfortable , like I had known her forever! Highly recommended
