Specialties

- [Obstetrician and Gynecologist](#)

An obstetrician (OB) is a physician specializing in pregnancy, childbirth, and the care that follows. A gynecologist (GYN) specializes in the health, diagnosis, and treatment of the female reproductive system. Training for these specialties often overlap, and many doctors are experts in both (OB/GYN). OB/GYNs manage all aspects of women's health involving the reproductive system through medical and surgical means.
