**Dr. Mcclosky actually sat down with me and had a conversation. I had many concerns and was coming to her for sort of a second opinion. She put my mind at ease by answering my questions and reviewing my test results from another provider at another hospital. By the end of the visit I felt a little rushed with my few additional questions, but to be fair I did have a lot of questions. Overall, I'm very satisfied with my care here! Thank you for keeping your clinic running on time, allowing the Physician to spend time with me, and making the clinic a judge-free and worry-free place.**

**I really liked Dr. McCloskey! Even though the appointment was brief she didn't seem as "rushed" as some of the other doctors. She answered most of my questions before I even asked them and explained everything in a very calm friendly way. She took the time to answer my additional questions and gave enough pause after answering that I had time to make sure I got everything out before the appointment was over. Very positive experience.**
