CLASS OF 2018 RESIDENTS MEET THEIR MATCH

Three members of the UW Ob-Gyn resident class of 2018 got exciting match! In July of 2018, these fantastic residents will head off to continue their training in fellowship programs:

Ross Harrison, MD, matched to the Gynecologic Oncology fellowship at **MD Anderson Cancer Center** at the University of Texas in Houston.

Kevin McCool, MD, will leave us for the **University of Michigan's** Gynecologic Oncology fellowship.

Ashley Turner, MD, is headed to **Northwestern University's** Family Planning fellowship.

(Also, remember that time in August when **Hayley Barnes** matched into Loyola University's female pelvic medicine and reconstructive surgery fellowship?)

Congratulations on these well-deserved accomplishments! We're so proud to be represented in the world by all our amazing
