Family planning and contraception

Our patients benefit from the expertise of a professional team offering the full range of family planning services, including pregnancy planning, **prevention or termination**, as well

as difficult IUD and implant removal. In the management of pregnancies diagnosed with fetal anomalies and pregnancy-related maternal complications, we also work with specialists in **maternal-fetal medicine** and the **Fetal Care Center**.

We know that decisions regarding pregnancy can be difficult, and our specialists provide caring and qualified counseling in addition to medical services and support.

Our family planning services include:

- Counseling in pregnancy options
- Medical and surgical management of miscarriage in first and second trimester
- **Medical and surgical pregnancy termination**
- Contraception
 - Counseling in birth control methods to prevent unplanned pregnancies
 - Intrauterine devices (IUD) and implants, including management of difficult removals
 - Hormonal contraception
 - Female sterilization
 - Contraception for medically complex patients

General gynecology

Our specialists also provide general gynecologic and reproductive health care, including minor and major gynecologic surgery, for women of all ages.

Our general gynecologic services include:

- Annual gynecologic exams, cervical cancer screening, human papilloma virus (HPV) vaccination, and other preventative gynecologic care
- Sexually transmitted infections (STIs / STDs) testing and treatment
- Abnormal uterine bleeding and uterine fibroids management
- Abnormal Pap smear diagnosis and treatment, including colposcopy and loop

electrosurgical excision procedure (LEEP)

- Menopause and hormonal therapy management
- Major and minor gynecologic surgeries, including hysteroscopy, laparoscopy and hysterectomy
