

The UW Health Arboretum Obstetrics and Gynecology Clinic is a full-service ambulatory clinic serving women.

UW Health Arboretum Ob-Gyn residents and faculty are located in a full service ambulatory clinic serving women. With the support of dedicated nurses, social work, patient resources and skilled office personnel, our residents and supervising faculty provide patients with high quality, humanistic and personalized care.

Key services include:

- Comprehensive obstetrics, gynecology and primary women's health care services
- Broad range of obstetrical services including, but not limited to low-risk and high-risk pregnant patients with medical issues such as hypertension, thyroid disease, opiate addiction and gestational diabetes
- Full range of gynecologic surgical services including, but not limited to treatment of abnormal uterine bleeding, female incontinence, fibroids, endometriosis, polycystic ovarian syndrome (PCOS), ovarian cysts and cervical dysplasia
- Comprehensive contraception services including birth control pills, intrauterine device (IUD), Nexplanon implant, surgical sterilization and natural family planning methods
- Full service diagnostic and treatment colposcopy clinic, including surgical conization and office loop electrosurgical excision procedure (LEEP) for evaluation and treatment of abnormal PAP test
- On-site social work support

Medical Director
