When I moved to Virginia I was pregnant but high risk and the first time I meet **Dr. Abdul** she was awesome to and my situation. She is a compassionate doctor and I just enjoyed every moment with her. She help bring into the world our blessing from God and we will never forget her or the staff for all they did for my family. Love, The Ihenyen family "

I had twins and was high risk and she didnt try anything like most doctors would have to save my babies, **all she kept telling me was to abort them**, when they had a chance to live, she wasnt willing to try and save them, to make it easier for her, she wanted me to abort, as to her, THIS WAS MY ONLY OPTION...AWFUL EXPERIENCE "
